High Rise Opens For Elderly, Handicapped At 6th And L S.E.

SIX PERSONS HAD MOVED INTO THEIR homes in the high rise at 6th and K St. S.E. by the first weekend in December. The building has been vacant for many years, and has now been renovated as a residence for elderly and handicapped persons.

RIBBON CUTTING - SUCH AS AT THE elderly housing at 6th and K St. S.E .gives elected officials a chance to tell a positive story of accomplishments to offset the headlines about deficits and deficiencies. Pictured is the speaker's stand a short time before the mayor arrived.

NEW NOISE POLICY AT NATIONAL AIRPORT

Stricter controls on airlines flying from National Airport, located across the Potomac River from the Southwest Waterfront, will take effect March 1, 1982.

However, wide-body jet airplanes with 2 or 3 engines are permitted.

The policy states that between 10 pm and 7 am "no large jet aircraft will be able to take off..." "There fore, air carrier activity... will be greatly diminished." "At present, on an average night ... approximately 12 to 18 operations after 10 pm are by aircraft that exceed the adopted noise limit. These aircraft will no longre be permitted to operate during the night hours."

The policy continues, "The FAA expects that air carriers will schedule operations realistically to arrive before the 10:00 pm time period.... If monitoring reveals that the carriers are abusing the grace period, the FAA may take additional regulatory action."

The FAA rejected the request of New York Air to have slots (for its New York to Washington run) "not counted in regulation which restricts the number of scheduled operations.'

The SW/SE Advisory Neighborhood Council (ANC 2-D) commented on the proposed policy last summer. It does not go far enough for safety and to protect residential areas from noise, the ANC stated.

The FAA points out that National has had noise restrictions since 1960. "Significantly, at National Airport there is a long history of nighttime noise restrictions. Since 1960, the air carriers have not scheduled jet operations to occur after 10:00 pm

Carrolsburg Square Neighborhood Watch

Based on the theory that crime will be discouraged where tenants cooperate in looking out for each other, about 100 tenants of Carrollsburg Square (North and East Buildings) met in the North Building lobby. Officer Jerome L. Gladden, 1st District Community Services, explained the program and how neighbors can cooperate to report suspicious activity. The meeting was organized by residents Thelma Martin and Virginia Turner. -Richard F. Ward

S.W. COMMUNITY HOUSE HONORED

The Southwest Community House was honored by a resolution presented by Council Member Hilda Mason on November 24, 1981, at a Council meeting. The House has served S.W. for over 60 years. The 39 member volunteer board is interracial and made up of all income groups. About 500 persons are members, by donation if they live outside the S.W. area, or by written intent if residents.

The 21 agency staff members are predominantly from the community and were involved in the agency and area during urban renewal of the area. Mr. Barney Shapiro, President of the Board, and Executive Director Rae Williams accepted the resolution on behalf of the House.

and prior to 7:00 a.m.... The FAA provides the Washington area... with an unrestricted 24-hour facility at Dulles where the aircraft that do not comply with National's nighttime noise standards are able to operate."

SOUTHWEST EMERGENCY FOOD PROGRAM

by Father Haddad

The Southwest churches and synagogue, working together with the consumer office of Southwest Community House, have established the Southwest Emergency Food Program.

We will continue to collect food items from the local congregations and help in the delivery of food from the Central Food Bank and from the SWCH consumer office at 203 N St. S.W., which will be the coordinating and distribution center for emergency food in Southwest.

Monies from St. Dominic's that were previously given in the form of food vouchers will be used to help purchase food for the local food bank.

The Southwest Clergy Association is soliciting volunteer to help in the deliveries and to form a committee to work with the SWCH consumer office. Volunteers may contact Mrs. Delores Mack at the consumer office at 484-3125.

The Capital Ara Community Food Bank which receives unlabeled cans, broken cartons, and over-stocked items from area grocers, will provide the SW group with these items at 10¢ per pound.

Jeff Jr. and Education Week

National Education Week was introduced in S.W. when students from Jefferson Jr. High led the worship at Westminster Presbyterian Church. Darryl Brewer gave an opening statement, ending with the school motto: "If our minds can conceive it, and our hearts can believe it, we can achieve it."

Tauscha Vaughn read from the Old Testament and Sabrina Lambert from the New Testament. The principal and assistant principal were in the audience.

The theme of the week was "Public Education and You, Partners in Our Children's Future."

CAPITOL SOUTH COMMUNITY IMPROVEMENT ASSOCIATION MEETS DECEMBER 22

The monthly meeting of the CSCIA will be held at 6:30 pm Tuesday December 22 at the Star Building.

THE BARNYARD JUNKYARD BAND PERFORMS AT THE MARTIN LUTHER King-Greenleaf Recreation Center Halloween party. When they become famous musicians, remember they were once known as (left to right): Baby Brother, Spunk, Kirky, BahBah, Switzer, Covington, McCoy and Kunto. The P St. Junkyard Band under the leadership of Anthony Greene also performed. According to center director Rosa Mitchell the recorded sounds and disco lights were a delight and the audience participation was outstanding.

Soccer For Age 7 - 14; Kids, **Coaches Needed**

Boys and girls in SW/SE who would like to be on a soccer team will have their chance through a league called "Soccer-On-The-Hill." Pictured on this page is one team made up mostly of Southwest youth, coached by Art Dymond, stationed at Ft. McNair.

Children born between 1968 and 1975 are eligible. In the 11 to 14 age group the teams become all-boys and all-girls. Games are played with such leagues as Alexandria and Bolling.

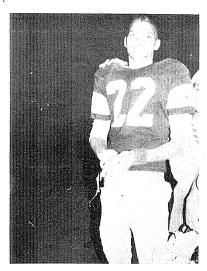

Several of the 1981 coaches are retiring and need to be replaced. It is a great chance for men and women to be coaches, giving guidance and training in an exciting, growing sport.

Helen Westbrook is handling registration of new players for the spring season and can be reached at 554-1448.

Club No. 4 Awards Banquet

Friday evening, December 18, Club No. 4 will have its annual awards banquet at St. Matthew's Lutheran Church, 3rd and M St.S.W. Awards for football 1980 and each season through the summer 1981 will be presented.

Dexter Manley of the Redskins will be on hand to honor the young athletes. A karate demonstration by Jhoon Rhee is planned.

MARK MATHIS IS SMILING AFTER HIS spectacular interception and runback for a touchdown in the annual S.W. Turkey Bowl at Martin Luther King, Jr.- Greenleaf field. The game between L St. S.W. and K St. S.W. ended in a 13 to 13 tie.

Maybe Monte Coleman of the Redskins got the idea from Mathis when Coleman made an interception and 52 yard return that helped the Redskins beat the Eagles on Dec. 6.

SOUTHWEST SOCCER PLAYERS IN A GAME AT ANACOSTIA NAVAL STATION are on the Pounders team. In gold shirts left to right they are: Nancy Kauffman, Ryan Segars (about to kick the ball), and way in back on the right, Diallo Evans.

AT HALF-TIME THE POUNDERS GATHER ROUND WITH COACH ART DYMOND, WHO is being stern with them. Left to right, they are Diallo Evans, in a hood; Tony Pecore, with collar turned up; Coach Dymond, Kobie Drew, Antwan Dade, with striped shirt; Michael Davis, in back; Artie Dymond, Joey Baker, head turned part way; Jacob St gon, at the far right. Becky Shotwell's blond hair is all we see of her in the lower right corner of the picture. Not shown are team members Shoronda Briscoe, Jared Briscoe and Teddy Carter.

S.W. House Christmas Party

Saint Nicholas is scheduled to visit the Southwest area on December 20, 1981, but he needs your help.

That's the date for the annual Christmas Festivity planned by the Southwest Community House staff. The party will be held in the Waterside Mall from 6 to 8:30 p.m., and to make it a success, the community house staff needs contributions of party items. Anyone who lives or works in the area could easily drop off items at the Southwest Community House located at 156 Que St. SW. From other parts of the city, the staff will make arrangements for pickup. Call 488-7210.

Last year's Christmas project helped more than 300 needy children, ages 4-12. This year, the staff would like to reach ages 4 to 8. New toys or gifts, small prizes, Santa stockings, punch and cookies are needed. If you can give any of these call the office between 9 am and 5:30 pm, Monday through Friday. 488-7210.

"Walk Up one Flight and SAVE !!!" Just 2 Blocks from CAPITOL SOUTH Metro Station

THIS PORTRAIT OF DR. MARTIN LUTHER King, Jr., is a lino cut block print by Southwest artist Averille E. Costley-Jacobs. It measures 8 inches by 10 inches and is limited to an edition of 50 prints. Ms. Costley-Jacobs is co-director of Galerie Triangle at 1206 Carrollburg Place, S.W. Mr. and Mrs. Jacobs have organized an art exhibit at the Martin Luther King Library at 9th and E. N.W. as a tribute to Dr. King.

Subway Service Postponed Multil 1990

The Reagan Administration and Congress have provided Metro-rail with a smaller budget than requested for construction of the subway system in the D.C. area. As a result construction will be stretched out and new lines delayed. Costs are shared 80% Federal, 20% local.

Two years ago the annual city budget for capital projects forecast the date for starting service on the Metro-rail Inner Green Line, which includes the Waterfront Station at Waterside Mall, as "mid-1985." The newly released city budget for Fiscal Year 1983 says, "This schedule projects a fully operational Inner Green Line by 1990."

On page 69 of "Capital Improvements Program 1983/1988" dated January 1982, it states:

"Currently, the Anacostia Station and tunnel line are scheduled for construction in 1982. A portion of line between the Shaw and U Street Station is also planned for 1982. The Navy Yard Station and line are 1983 projects, while the UDC/Mount Vernon Square Station and line and the Shaw Station are to be undertaken in 1984 and 1985 respectively. The proposed development plan anticipates construction at the U Street Station beginning in 1986. This schedule projects a fully operational Inner Green Line by 1990."

ANC REPORT INSIDE

(EIGHTEEN YEARS HAVE GONE BY since Dr. King gave this speech. But does it still reflect the grip of racism in our country and neighborhood?)

"I Have A Dream. . ." Dr. Martin Luther King, Jr.

"But one hundred years later, the Negro still is not free. One hundred years later, the life of the Negro is still sadly crippled by the manacle of segregation and the chain of discrimination. One hundred years later, the Negro lives on a lonely island of poverty in the midst of a vast ocan of material prosperity. One hundred years later, the Negro is still languishing in the corner of American society and finds himself an exile in his own land. So we have come here today to dramatize a shameful condition....

"We have also come to this hallowed spot to remind America that the fierce urgency is now. This is no time to engage in the luxury of cooling off or to take the tranquilizing drug of gradualism. Now is the time to make real the promise of democracy. Now is the time to rise from the dark and desolate valley of segregation to the sunlit path of racial justice. Now is the time to lift our Nation from the quicksands of racial injustice to the solid rock of brotherhood. Now is the time to make justice a reality for all of God's children....

"Those who hope that the Negro needed to blow off steam and will be content, will have a rude awakening if the Nation returns to business as usual. There will be neither rest nor tranquillity in America until the Negro is granted his citizenship rights. The whirlwind of revolt will continue to shake the foundations of our Nation until the bright day of Justice emerges...

"Let us not seek to satisfy our thirst for freedom by drinking from the cup of bitterness and hatred.

"We must forever continue our struggle on the high plane of dignity and discipline. We must not allow our creative protest to degenerate into physical violence. Again and again we must rise to the majestic heights of meeting physical force with soul force...

"I say to you today, my friends, even though we face the difficulties of today and tomorrow, I still have a dream. It is a dream deeply rooted in the American dream. I have a dream that one day this Nation will rise up and live out the true meaning of its creeds - "we hold these truths to be self-evident that all men are created equal."

"I have a dream that one day on the red hills of Georgia the sons of slaves and the sons of former slaveowners will be able to sit down together at the table of brotherhood...

"I have a dream that my four little children will one day live in a Nation where they will not be judged by the color of their skins, but by the conduct of their character..."

Study Team To Start Project Aimed At Revitalizing Waterside Mall and S.W.

INTERVIEWS HAVE BEEN HELD AND AN announcement is expected to be made by the city on which of five consultants will conduct a \$60,000 study to recommend ways to bring more business to the Waterside Mall and throughout Southwest.

Proposals submitted by the consultants tell how they would go about finding ways to make better use of the waterfront and shopping areas to serve the 12,500 residents, 125,000 daytime workers within walking distance and the thousands of tourists attracted to the tour boats, restaurants and motels.

An advisory committee helping the city includes Carol A. Cowgill, chairperson of the Save-Our-Mall Committee, Willie Lloyd Reeves, Jr., Chairperson of Advisory Neighborhood Commission 2D, Irene Cox, Assistant Manager of Greenleaf Gardens housing, George F. Riseling, President, Waterfront Association, Brian P. Moore, President, S.W Neighborhood Assembly, and Charles S Bresler, Waterside Mall developer.

CONSULTING FIRMS COMPETING FOR THE city contract to study Southwest told of their experience with other Malls and economic studies. One firm used this illustration in its proposal.

Capitol Gateway Developer Discourages Housing For Low /Moderate Income Families

The promise lasted only until the ink was dry on the Mayor's signature to the council act extending the moratorium on building permits in the 40 acres east of So. Capitol St. Maybe there won't be housing.

At a January 7, 1982, meeting of some of the Directors of M.U.S.C.L.E. Capitol Gateway Corporation (DRAVO Corp. of Pittsburg) asked for community pressure to get the city to change the Capitol Gateway plan so that the developer would not have to subsidize low-medium income housing and so there would be "a more flexible construction schedule."

The Mayor had signed Bill 4-296 on December 21, as the developer asked. For one year it stops'hew construction, substantial rehabilitation, subdivision formation, or street and alley closings in the Capitol Gateway Project area."

Capitol Gateway Corporation had written in a November 12, 1981 memorandum to the council committee chair, "The developer of Capitol Gateway has given its commitment to low and moder-ate income housing."

The Council committee on November 17, 1981 received a memorandum from Robert L. Moore, Director of the city Department of Housing and Community
Development, saying "...the Department has adopted a policy which will require that 20 percent of all housing units developed during each developmental phase be low- and moderate-income housing." The council's pa The council's passage followed within weeks.

Now the developer isn't so sure.

"Living Stage" Needs Space

"Living Stage", a small group of theatre people working out of the Arena Stage building, is a Southwest asset that needs our help.

The space they've used for rehearsals, storage and performances "at home" at Tiber Island is no longer available.

Who has a large conference room or meeting room they can use at no cost or a very low cost? Their audiences are only 15 or 20 children and during the daytime.

The ceiling height should be from 10 to 18 feet. Lighting should be incandescent, not fluorescent. Wood floor

Rebecca Rice and Mark Novack creating a song as suggested by children in the audience.

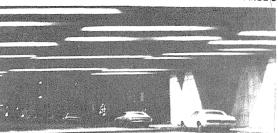

Oran Sandel creating a story with a child from the audience. "Living Stage" regularly performs at D.C. Jail, Lorton, Cedar Knoll, and many schools and centers for elderly or disabled.

is preferred. The size of the room should be 36x36, or 40 by 30, or 25 x 50 - from 1,200 to 2,000 square feet.

They need access to the building at various times to go out to perform on a Saturday morning, for instance.

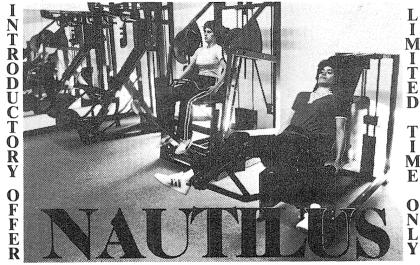

Naturally they prefer S.W. where they've been for so long, and because of their offices in Arena Stage.

Call 554-9066 with your offer or suggestion.

Food Baskets Reach Many In S.W.

One hundred and ten families were given food at Christmas through the Consumer Office of S.W. Community House. At Thanksgiving more than 125

families were given food baskets.

SWCH gives credit to the S.W. ministerial group, IBM, Delta Sorority and many churches, schools, tenant associations and individuals.

The Consumer Office attributes the recent increase in persons coming to the office for aid to high unemployment and R.I.Fs.

Rae Williams, director of the house, stated: "Although many of these families living in Southwest attempt to arrange independently to make these times meaningful, the absence of one parent, illness, recent crisis situations or death often make it difficult to work out the necessary funds to make a holiday gathering special. SWCH is appreciative of all the community persons who helped in this endeavor of distributing food baskets."

nnual Report

ANC MEETING. From 1 to r: Commissioner Constance Smallwood, ExDir Gottlieb Simon, Commissioners Lloyd Reeves, Gerald Griffin, Leon Fields and Clarence Green. Shown above, upper right, Fields, Green and Ethel J. Williams.

Economic **DevelopmentS in** SWISE

How will development of the remaining underdeveloped areas of SW/SE affect neighborhood residents? To what extent will SW/SE residents benefit from redevelopment?

This issue grows in importance each year. During FY81 the Commission dealt with several important real estate developments. The coming year is likely to see decisions which will determine the course of SW/SE development--and its consequences for area reaisdents--for years to come. The Redevelopment Land Agency (RLA) will decide who will develop Parcels 47 & 49 (the Portal Sites) and the D.C. Council will decide whether to approve the Capitol Gateway redevelopment plan.

In the last year the RLA gave its okay to two developers. The National Business League, a non-profit organization of black businesses, was granted the right to build a headquarters on Parcel/81, adjoining Jefferson Jr. High School.

Merchandise Mart

The Merchandise Mart, a major holding of the Kennedy family in Chicago, got the go-ahead to convert the refrigeration warehouse at 4th and D Streets, SW (parcel 27) to a "design center". The okay did not come, however, until the Mart revised its affirmative action plan twice in response to ANC criticism.

The ANC has steadfastly refused to endorse any redevelopment projects until it receives adequate assurances that area residents, especially low income, minorities and women, will have first opportunity to participate in all phases of the redevelopment.

2D Fights Jet Problems

"Low-Flying Jets Raise Roar of Protest," said the newspaper headline. The headline, one of several that appeared in the spring, might have been an understatement.

Area residents who had suffered with an occasional jet flying directly overhead were subjected to a constant din of jet engines beginning in Janu-The ominous increase in thunderous noise was a result of a change in air traffic patterns. Increased competition between airlines flying to New York led to the use of a shortcut that brought jets directly over the 2D area.

The new shortcut brought not only noise but safety problems. Jets taking off or landing at National Airport had to execute a sharp turn while changing altitude. In the view of many area pilots and aviation experts, that maneuver constituted a serious and unnecessary hazard.

The ANC, together with the SWNA, organized a Town Hall meeting attended by a capacity crowd. The Commission also helped organize the Committee Against Jet Flights Over Southwest. The Committee, with representatives from many residential complexes in the area, conducted a massive lobbying and publicity campaign.

The airlines denied that their shortcut over SW/SE was hazardous. Nevertheless, after wide ranging community protests they agreed to abandon the shortcut. In addition, the head of National Airport, Michael Wilding, told the Commission that FAA would work with the community to keep flights from disrupting the area.

In order to help keep the pressure on the FAA, and the airlines, the Commission has joined the Coalition on Airport Problems.

LEFT: The Southwester headlines summarize ANC 2D efforts in FY81.

Park or Parking Lot?

When Congress transferred use of Reservations 17C & D to the District in 1975, it said the land should be used for "recreation". The District's Department of General Services turned the land over to the Board of Education. But, instead of using it for recreation, the Board of Education has been using it as a parking lot for some of its buses.

For the last two years the Capitoi South Community Improvement Association, with the support of ANC 2D, has been trying to get the District government to live up to the terms of its agreement with Congress. Several meetings have been held with District officials. Letters have gone back and forth. But still the buses remain.

According to à D. C. government study carried out during the last year, the city can't find any place else to park the buses. City Administrator Elijah Rogers, however, promises to keep looking for a Wolution as part of the city's comprehensive plan. (Reservations 17 C & D are located between 2nd, K, Canal, and M, SE.)

Bus Service Threatened

An old and faithful "friend" to many has been lost. The Downtowner (M-8 bus) which provided mid-day bus service between Waterside Mall and Washington Circle made its last run in September. The District government, citing increasing costs and low ridership, turned back ANC and community appeals to keep the service going.

The M-2 which connects Southwest with Capitol Hill barely managed to excape the budget ax. Appeals from the ANC and others were more successful than in the case of the M-8. None-theless while service was not eliminated, it was pared back to rush-hour only. The community has also had to come to the defense of the 60 and 70 lines.

Offsetting these reductions in bus service, the District Department of Transportation announced a plan at year's end to institute "small bus" service. The new service would link various points in SW with the L'Enfant subway stop. Ironically, DC DOT proposes to use the old Downtowner buses for the new route. While the Commission is pleased to see new services for the area, it does not want this to come at the expense of cut backs on existing bus routes.

Ambulance Service Questioned

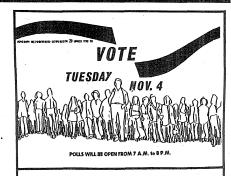

Suddenly you collapse unconscious. It seems as if you are having a heart attack. Someone calls for an ambulance. Will it arrive in time? Will it have adequate equipment and supplies?

Following an emergency in the neighborhood, the ANC became concerned about the adequacy of the District's emergency ambulance service. The Commission wrote to the Fire Chief and asked that the Fire Department, which is responsible for the ambulances, institute a quality assurance program.

The Fire Chief conducted an investigation of the ANC's concerns. As a result he promised changes in some of the ambulance procedures. The District Council, concerned by newspaper articles that appeared about the same time, also examined the issues. In the end, the Council developed legislation which would reorganize the ambulance service and make it an independent division in the Fire Department.

REDEVELOPMENT, from page 1

Considering the high unemployment rate in SMDs 6, 7, 8, 9, and part of 3, jobs and job-training have been the ANC's primary concern. During the last year, the Commission began considering other ways in which development could improve the community. These considerations eventually focused on the creation of a "community development corporation". The idea began in discussions with Travenca Development Corporation in the fall. The Commission, however, was not ready to commit itself to a developer. Instead, it decided in the spring to appoint a task force to look into the possibility of setting up a CDC. The response was strong and enthusiastic. The task force soon branched out on its own to become, with initial assistance from the ANC, SEDCO--the Southwest-Southeast economic development corporation.

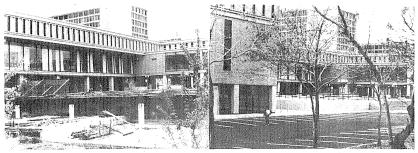

The Commission conducted a vigorous get-out-the-vote campaign in October 1980. With the assistance of student volunteers from Southeastern University, more than 400 new voters were registered.

Arts Flourish in SW

Arena Stage is nationally and internationally known. It not only celebrated its 30th anniversary in FY 81, but was added to a listing of noteworthy historical landmarks. Less well known, but increasingly important, are other cultural institutions in the area. The SW Festival of the Arts celebrated its 12th year. SW Opera, based at Westminster Church, performed its second season. And, SW residents Charles and Averil Jacobs have opened an art gallery on Carrollsburg Place. Such developments spurred interest in creating an Arts Center at the old Safeway store, now vacant, at Waterside Mall; funding problems, however, stand in the way. Nonetheless, the 2D area is ready for an arts "take-off".

Is Waterside Mall "Saved"?

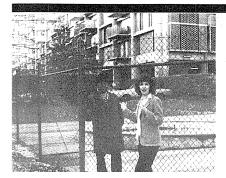

BEFORE AND AFTER. The north or Eye Street-side of Waterside Mall as it looked for several years and as it looks now. The new store space, however, is vacant.

Once literally describable as the "pits", Waterside Mall was virtually completed during the last year, at least architecturally. The filling in of the ugly and hazardous excavations, and the opening of the Safeway in a new and larger store were welcome progress.

Sadly, little progress was made in brining additional commercial tenants to the Mall. Large portions of the Mall remain vacant and uninviting. Despi te the progress of the last year, the Mall is still far from achieving its planned role as the Southwest's "town center".

The ANC thus continues to support the work of the Save Our Mall Committee. Along with the Committee and the SW Neighborhood Assembly, the Commission helped convince the city to allow U-turns on M Street at 4th and M. The move was intended to improve traffic flow as well as make the Mall more accessible. (Meanwhile the intersection at 4th & M remains a problem area; it would help, for instance, if the city eliminated the right-turn-on-red there.)

The effort to improve Waterside Mall involves various parts of the city government with coordination being provided by the City Administrator's office. Last year the city agreed to initiate a new campaign to help the Mall. After consultation with SOM, SWNA and the ANC, the Office of Business and Economic Development issued a RFP (request for proposals) inviting consulting firms to study the Mall and SW generally; the study will be conducted in the coming year.

FENCE FOUGHT. Penny Brewster and ANC Commissioner C.W. Hargrave discuss neighborhood opposition to the fence that Interstate General Corporation has put up around 301 G Street SW; IGC is planning similar fences to go around 101/103 G and 201 Eye Streets.

Housing: Problems & Progress

Nineteen hundred and eighty one brought ome relief to hard-pressed tenants. Displacement, real and threatened, slowed. New ent control and condominium conversion laws, supported by the ANC, went into effect.

With help from the Federal and District rovernments some tenants became owners luring the year. Residents of Tel Court and 'own Center turned their attention to organizing heir new cooperatives, while tenants at Finley fouse (now "Riverside") and Carrollsburg set up ondominiums. Planning began also in setting up a new coop for Tiber Island.

These changes have helped stabilize the ituation of many residents. At the same time, of course, they reduced the number of rental nits in SW. And a substantial number of people low live in investor-owned condo units without he protection of D. C. rent control. (Landlords who own less than 5 units are exempt from rent control.)

Capital Park

A large number of rental units were nearly lost it Capitol Park International, 800 4th St., SW. With about one-fourth of the building's units ented like hotel rooms, the management tried to vin an exemption from the District's prohibition in conversion of apartments to "transient occupancy" units. The Commission joined with vorried tenants and angry residents in adjacent condominiums to fight the conversion before the District Council. At year's end, the exemption ad been blocked. The issue of the remaining hotel" units meantime continues to be argued in front of the Rental Accommodations Office and he RIA.

Tenants of the other Capitol Park apartment wildlings (under different ownership) have also ad their problems. Their management convinced he Federal government to preempt the D.C. rent control law and raise their rents over D.C. limits. While the tenants have succeeded in blocking pre-nature increases and scaling others back, their andlord is again asking the Federal government o preempt D. C. rent control.

Public Housing

Meanwhile residents of public housing coninue to suffer not only increasing rents, but ubstandard conditions as well. Residents of rthur Capper and Greenleaf once again were ubjected to long periods without heat or hot vater during the winter. City stop-gap measures-roviding space heaters—were too little and too ate. Despite repair and replacement work, the utlook for the coming winter is again a cold one.

School Closings

It happens each summer. The Superintendent makes up a list of schools that should be closed because of declining enrollment. The list includes at least one school in the SW/SE area. Parents and other residents mobilize to keep the schools open. The Superintendent drops the 2D schools from the list.

Nineteen hundred and eighty one, however, was different. Lennox Annex, serving Southeast students, was closed. It was even placed on a list of surplus city property to be sold. Randall, still "new" as a senior high school, was finally closed, too.

During the year the Board of Education had considered and then rejected a plan to close Randall and convert Jefferson into a high school. The resignation of Vincent Reed as Superintendent and the reshuffling of top education officials seemed to have derailed community and school system consultations.

Finally, a new Superintendent was appointed. While winning the support of the Commission generally, she also moved all educational programs out of Randall in September, without any warning. The Commission protested the lack of community participation in this decision.

In the meantime, while test scores are continuing to rise in area schools, enrollments are declining. The prospect of future school closings continues to loom over the horizon. And once again there is no senior high school in Southwest.

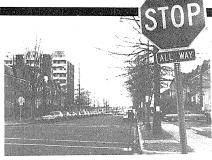

JAMES CREEK. Above apartments are being prepared for extensive renovations. Below workers, including some area residents, modernize James Creek units.

One bright spot was the renovation of James Creek which finally got under way in the spring Residents of the 267 units were relocated and their former townhouse apartments gutted. A number of residents from James Creek, and other public housing properties, moreover, had been hired to help in the reconstruction.

Some of the older James Creek residents were slated to move into the Arthur Capper senior citizen building at 6th and I, SE. Unfortunately, yet another year has passed and the much delayed reopening had still not occurred by year's end.

CARS YES, TRUCKS NO. Residents of G Street SW would like to see the quiet of their peaceful street maintained. With assistance from the ANC they are seeking to ban commercial traffic from this stretch of G to the freeway.

Recommendations On ANCs

The Commission offers the following recommendations to the District government for improving ANC operations:

- 1. Eliminate the requirement that DC Council approve ANC solicitation and receipt of all grants or gifts over \$100.
- 2. Draft appropriate conflict of interest regulations.
- 3. Provide the annual allocation in one lump payment on October 1.
- 4. Change the allotment transmittal schedule to base delivery on receipt of the previous quarter financial report rather than the current one.
- 5. The city should provide office space for ANCs in DC government space.
- 6. The time for circulating ANC nominating petitions should be changed so it does not coincide with Labor Day holiday period.

COMMENTS

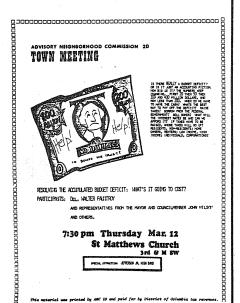

The ANC again in FY 81 operated at less than the amount called for under the Home Rule Charter. Even though the Mayor and the City Council have budgeted the full amount, the Congress has typically appropriated only about half the mandated amount. During the last year ANC 2D received \$18,335 as its per capita share of the total ANC allocation, or about \$1 per resident.

The Commission actually spent about \$50 more during FY 81 than it received. This was possible because of a "reserve" fund of \$1,870 carried over from the pervious year. The Commission's financial condition was also helped by the recovery of its IBM typewriter. The machine had been stolen, and the Commission anticipated having to buy a replacement. Fortunately, the FBI found it. (Thanks to Dale MacIver for providing the ANC Office with a "loaner" while we were without.)

CAPITOL GATEWAY? ANC Chairperson W. Lloyd Reeves examines plans for the proposed Capitol Gateway development in Southeast between South Capitol Street and First, below M. The ANC has followed this proposal closely testifying at public meetings and before District Council committees.

TOWN MEETINGS. In addition to the meeting on the accumulated budget deficit, ANC 2D sponsored town meetings during FY81 on housing legislation, jet overflights, and candidates in the 1980 general election. The Commission also sponsored two leadership forums that brought together volunteers as well as staff of organizations from all parts of the SW/SE area.

SE Awaits Play Space

Residents of ANC 6B said it should be used for parking. Residents of ANC 2D said it should be used for recreation. "It" is the space under the freeway between 7th and 8th Streets, SE.
The D.C. Department of Transportation is

responsible for the space. After listening to the opposing views, DOT did the predictable thing. It divided the space in half. The northern part, adjoining ANC 6B, was assigned to parking. The southern part was to be for recreation.

The compromise has not worked too smoothly. While parking meters have been installed on the 6B side, the 2D side still has not been prepared for recreation.

After southeast residents of SMDs 8 and 9 complained, ANC 2D took their complaints directly to DOT head, Tom Downs, and to Mayor Barry. Both officials have now assured the ANC that the site will be prepared for recreation before the end of FY 82. To show their good intentions they delivered copies of the construction blue prints to the ANC in late August.

Crime Fight Intensifies

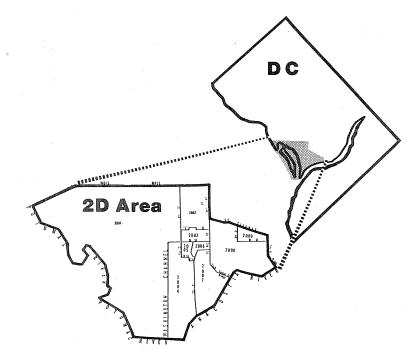

Compared to other sections of the city, the police say, crime in SW/SE is not that great. However, compared to what residents want and expect, crime is a problem. During the last year several residential complexes in the area put up new fences and flood lights; others are considering doing likewise.

These physical efforts were matched by social efforts aimed at organizing the community to fight crime better. A neighborhood Security Coalition was set up. The Coalition has committees looking at better enforcement as well as improved crime prevention techniques. During the coming year we expect to see more neighborhood crime watch programs set up in the area.

As part of this general anti-crime effort, the ANC supported legislation (Bill 4-184) to crack down on prostitution and drug sales on the streets. This bill would prohibit "loitering" and solicitation for the purpose of selling sex or drugs.

The ANC also appointed Irving Gamza to be its representative to the First District Police Advisory Council. The Council meets the first Tuesday of each month at the First District Headquarters

The First District Headquarters, at 4th & E, SW reopened in September following extensive remodeling and enlargement. The reopening has brought some comfort to SW residents who feared that an increase in local crime was due to a decrease in police presence.

Helicopter Pad on S.W. Waterfront?

THE CITY MAY BE RENEWING ITS IDEA OF putting a helicopter landing pad for the police fleet of helicopters at the site of the new building to be built at the Police and Fire Harbor Unit on the Southwest Waterfront. This idea was dropped a few years ago and D.C. police helicopters use National Airport.

But the Fiscal Year 1983 - 1988 Capital Improvements Program for D.C. dated January, 1982, contains a 500 thousand dollar item for 1985 and states: "Construction of a landing pad and Butler building to house a helicopter hangar and maintenance area. This facility will be needed to support Police helicopter patrols when MPD is required to vacate leased space at National Airport."

Amidon Gets Good Marks From Neighborhood School Council

Based on questionnaires of last May, the Neighborhood School Council at Amidon Elementary School at 4th and I St. S.W. reports: "We continue to be pleased and impressed with the dedicated and industrious team of teachers, staff, and administrators at Amidon. The teacher questionnaires reflect positive morale, and the parents (while suggesting some areas for imporvement) are enthusiastic. Many of the parents praised the teachers' commitment, and also remarked on the varied program of extra-curricular activities."

Teachers replying to a special questionnair suggested that parents sign a Code of Behavior agreeing that the student will abide by the rules.

Lack of Heat at Greenleaf Housing Brings S.W. Assembly To Aid

SHMA PRESIDENT RIAN MOORE pressed high officials of the D.C. Department of Housing and Development to take action on the heating problem at Greenleaf and Greenleaf Annex along M St. in S.W.

On Sunday January 10 as the city suffered its worst frigid weather with high winds, Moore visited a number of apartments and townhouses that had been without heat or hot water for weeks. His repeated calls to city officials brought a promise of immediate supply of electric heaters to the affected units.

In a followup letter Moore stated:
"The Southwest Neighborhood Assembly
is seriously concerned about the lack
of hot water and sufficient heat that
public housing units in the Southwest
area have been experiencing over the
past several months on a regular or
sporatic basis, with a major heating
problem affecting several hundred
units as of two weeks ago.

"At present many of the 500 units in the entire Greenleaf system are using open ovens or renting electric heaters or boiling water on the stove for steam to produce adequate heat.

"This condition is creating a serious burden on people 's health, resulting in respiratory problems, not to speak of the gas expense to the city and the wear on the ovens. Younger babies and children are most susceptable to this cold condition, especially in the early mornings when ovens are not functioning and blankets cannot adequately provide the necessary help."

Moore also asked who in the city government is in charge of assessing when the situation becomes an emergency, and whether heated schools or office buildings or churches could be used for relief of some of the people.

When Is National Airport Safe?

IT WAS A SNOWSTORM THAT MADE NATIONAL Airport "unsafe" this time.

Southwest residents have been pointing out the problems for years.

In the summers during the approach of the black clouds of a heavy thunderstorm from the west, southwest residents can watch from their windows as jet airliners bounce along trying to sneak in from the east before the high winds and torrents of rain will close the airport.

At the public meetings held in past months in Southwest, residents have grown tired of hearing the FAA say "If it were not safe, we would not permit it," and the airline industry say, "If FAA says it is safe it must be."

The aerial photo on this page shows the main runway, with the number 36 the lower right end, from which most planes take off into the prevailing northwestern winds and across the 14th Street bridge and up the Potomac River. Pointing to the Northeast is the shorter runway with the number 3, used frequently by the jets of N.Y. Air - the plum colored planes skimming over the apartment tops in S.W. That runway is only 5,100 feet long. If runway 36 at 6,840 feet is now admitted to be too short to be safe, what about runway 3 at 5,100 feet?

If you earn \$20,000 you can afford to own at Town Center West

THE CRIME STRATISTICS SHOW ...

ADDRESSING A MEETING OF THE FIRST District Police Advisory Council is Deputy Chief Ronal Cox, Commander of the district, center. Council officers seated left to right are: Treasurer Martha Queen, Secretary Daniel Zimmerman, President Peter Nelson, and Vice President Dr. Carol Jacobs (a Southwest resident).

Crime Drops In Area

The First District of the Metropolitan Police Department - with headquarters at 415 4th St. S.W. - will receive an award for the best crime reduction record in the city on Wednesday, February 24 at First District Headquarters.

At the February 2 meeting of the First District Citizens Advisory Council District Commander Deputy Chief Ronal Cox reported, "We have had crime reducions. Seven out of the last 11 months we have had a better track record in crime reduction than any of the other districts in the city.

For the last two quarters we have been in second place for the police chief's advisory council crime reduction award. We won the award for the quarter ending December, 1981."

"A year ago when I came to this District crime had risen 22% and 30%. In July, August, September and October we had decreases." For January 1982 First District was again ahead, with $4\frac{1}{2}$ fewer crimes a day, compared to 1.9 fewer crimes a day in the next best district, according to Cox.

The First District includes S.W., Capitol Hill, Capitol South and Downtown.

"Two areas we had targeted - high fear crimes - street robberies and burglaries in your home - went up slightly in January.... In the Southwest area we have been trying the tactics of educating the public, hoping that they will work with us in terms of keeping valuables and things out of their vehicles and out of sight of possible thieves...We placed fliers on windshields of cars...We did have some decrease...Larceny from autos was down 34%. Stolen autos down

We have high visibility of putting more officers in an area as well as our old clothes personnel and our decoy squad. We are doing more plant-

ing..."
"We have a problem with robberies (in Southwest) The Waterside Mall areaMS.V. W. MARCANTONIO, SAFETY CHAIR at Waterside Towers, rose to ask a question at the First District Police Advisory Council Meeting. Seated in front of her are C.W. Hargraves, SW/SE ANC Commissioner.

ranging anywhere from South Capitol to Sixth. The same kind of techniques have been employed down there - plants, old clothes personnel, and a step-up in uniformed."

An advisory council member in the audience asked: "At Waterside Towers we have a serious problem. Its an underground garage. Its actually a public garage as well as a garage for Waterside Towers...Where do you find responsibility assumed - by management, by the tenants, or by the police?" Chief Cox replied, "All. The ten-

ants themselves have the same responsibility to remove the items that would be attractive to any criminal.."

The council member replied, "These have been batteries and tires."

Chief Cox: "Management has some responsibility...security personnel, coded card access... Police - we have worked with that type of garage to get our own officers access...so our cars can get in there and go down and patrol....Its a combination of the three."

Council member: We've had fourteen crimes in a day...Everyone thinks its an inside job and they're not sure what is meant by an inside job."

Chief Cox: "Fourteen a day concerns me... No one has raised that kind of figure a day to me.'

Chief Cox he would check and also check into a second question of whether all reported cases actually get into the computer print-out of statistics in Southwest.

Cox urged all residents of the area to attend the monthly meeting and be a \$2 a year member of the advisory council. Regular meetings are on the first Tuesday of each month at 8 pm. at 415 4th St. S.W.

Tax Assistance At Library by 32%." "I have established a robbery squad. Monday Afternoons

Mondays from 1 to 5 pm tax assistance will be given at the S.W. Library (between K and I St. S.W., between 3rd and W bley Pl.) by the American Association of REtired Persons. First consideration is given to senior citizens, but others will be assisted if no seniors are waiting.

TRUDY FISH, LEFT, AND BARBARA BRANnan are other Southwest Residents at the advisory council meeting.

GATEWAY REPLIES ON HOUSING

CAPITOL GATEWAY IS COMMITTED TO LOW, MODERATE INCOME HOUSING, SAYS DARDEN

The executive vice president of Capitol Gateway Corporation has written to The Southwester to repeat its support of housing in the development project east of South Capitol St.

Orlando W. Darden wrote, "We stand by my statement ... of November 12, 1981.... I regret that someone has allegedly conveyed a position that is contrary to our established board policy on housing."

An article in the February 1982 Southwester reported comments to the contrary from another representative of the developer.

"Why is it that when you report an emergency maintenance problem that there is such a slow response?"

"Our youth have no place to go in the evening. Mayor, can something be done about this?"

"My living Room and Bed room ceiling are down at present. They fell last Saturday morning."

"What is your opinion for liability insurance for the car driver- required or optional?" "Monday, midnight, 22 Feb, we had explosive fireworks on the mall by the Smithsonian. Should the public - and definitely the police not be notified in advance of such events? I thought I was under fire overseas again when this occurred."

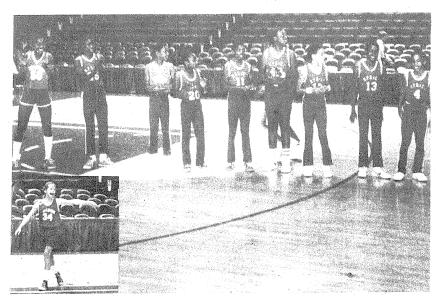

"What is being done to train public housing residents to maintain and manage their own housing?"

"I have been in courts since 1973 trying to obtain housing that meets the District Code...Why is the Housing Agency not made to bring the housing up to par just as I have to pay rent? (Resident of First St. S.W.)"

"Why is it that the public housing contractors you hired did such an inferior job that in the long run it cost the agency millions of dollars and the residents so many problems they have no control over?"

The questions have been forwarded to the Mayor for further comment.

Assembly May Support Bus Barn

"Final, firm, and full" support of the S.W. Neighborhood Assembly for a new enlarged bus barn next to Ft. McNair will depend on a number of "ifs," according to a letter from Assembly President Brian P Moore to D.C. Transportation Department head Thomas Downs.

"The Southwest Neighborhood Assembly will wholeheartedly support this project if the Department of Transportation can guarantee to the S.W. community the following items:" wrote Moore. Listed were traffic routing and street improvements to protect neighborhood streets, and a job training program described in these words:

"Establish a reasonable size job training program for bus mechanics and bus maintenance workers selecting D.C. low-income residents for its participants with 25% of the annual training slots being awarded to SW low-income residents."

Local support was also conditioned on discussions with the city planning office and the National Capital Plan-

S.H.I.V.E.R. Fights For More Heat sword of Damocles.

Spring weather has moderated the heating emergency but has not diminished the determination of S.W. and S.E. ministers and leaders to prevent another winter of no heat and no hot water in public housing units in the area. Two meetings have been set - one with Mayor Barry's staf at 8:30 am Tuesday April 6 and one at noon Tuesday March 23 at St. Matthew's Lutheran Church, 3rd and M SW.

(S.H.I.V.E.R. stands for Southwest-Southeast Heat Intervention Volunteer Emergency Response)

A visit to the boilers at Greenleaf and Arthur Capper revealed such failures as no regular maintenance records and no full time attendant - a requirement for pressure boilers.

SHIVER has also requested training courses to prepare public housing residents to manage their complexes - maintenance, security, repairs, rent collection, etc.

The city hopes to convert all townhouses in S.W. and S.E. to individual furnaces, to insulate and weatherize building. Tenants would receive a heat ing allowance and pay their own heat bills. Broken windows and damaged walls_ drain funds needed for operation and improvement of the premises, according to the city.

Wes Long Reports

As the Convention to draft a Constitution for the District of Columbia completes its first week of official deliberations, Delegates are coming to grips with the fact that we will be drafting a document designed to guide the government of the District for years to come. After weeks of seminars and organizational meetings, we must now get down to the task of actually drafting a Constitution and grapple with the ninety days in which we have to do it.

The battles on organization, rules and leadership which received so much play in the press have now given way to a feeling that we have to approach the questions before us as constructively as possible. Points of contention from now on will be over constitutional philosophy, but I'm sure we will find ourselves approaching problems pragmatically and with a determination to get things settled. The ninety day time limit hangs over our heads like the

There is a fundamental question: the role the Constitution will be designed to play under Statehood. There are those who are concerned about newly acquired rights and thus tend to want a lengthy and detailed Constitution. Others feel the document should be short, broadly worded and flexible. This is a real concern, as a danger exists that the document will be rejected by the voters or Congress because of one provision or because of misinterpretation.

Ward II Delegates were active in setting up the organization of the convention and one of our number, Alexa Freeman, has been elected to the position of Second Vice-President. . We have received our committee assignments and are getting down to business on our committees - where most of the work of the Convention will be done.

Alexa Freeman serves on the Finance and Taxation and Education Committees. Barbara Maguire serves on the Committees on the Executive and on Local Govern-Brian Moore is on the Judiciary Committee and on the Suffrage and Voters Rights Committee. Kenneth Rothschild serves on the Committees on Preamble and Rights and Health, Housing &Social Service; I serve on the Legislature and Economic Development Commit-

The short time we have will not pass so quickly, however, that the public will have no chance to comment on proposals for the Constitution. Meetings are at Convention headquarters on the 9th floor of the University of the District of Columbia building, 10th and E St. N.W. They are open to the public, as are committee meetings. The Committees on Preamble & Rights, the Executive, the Legislature, the Judiciary and Finance and Taxation meet on Monday and Wednesday evenings at 6:30. The Education, Health, Housing & Social Services, Economic Development, Local Government and Suffrage Committees meet on Tuesdays and Thursdays at 6:30 pm. The full Convention meets on Saturdays at noon.

I encourage you to contact a Ward II Delegate with your opinions and attend Convention meetings whenever possible.

Southwest League of Women Voters Discusses School Board

THE TOPIC OF THE MONTHLY MEETING OF THE SOUTHWEST UNIT OF THE LEAGUE OF WOMEN VOTERS WAS THE Washington, D.C. method of selecting its school board. Part of the group in attendance, above, are: (left to right) Betty Hubbell, Phoebe Layton, Burnley Perrin, Marie Irvin, Grace Savage, Mair Moody, Shirley Sickels, Anne Weinberg, Muriel Poland, and Celestine Morris.

A concensus was reached that the school board should continue as a non-partisan elected body. Whether elections should be changed to even numbered years when other city-wide and ward officials are elected was not agreed upon. Evaluating candidates by "caucuses" such as occurred in last fall's election was thought to be useful.

MP's Save Girl's Life At Ft. McNair

A two-year old girl choking on a piece of candy was saved by the quick action of PFC Lawrence Quinn, an MP at Ft. McNair.

PFC Quinn jumped out of his patrol car and raced to the Ft. McNair Arts and Crafts Shop, when a message came over the radio. "When I arrived there, a woman was trying to dislodge the candy from the little girl's throat. I checked the girl's mouth to make sure she in fact had an object in it. Upon discovering an obstruction, I hit the little girl between the shoulder blades to dislodge it," Quinn recalled.

The girl was Anastasia B. Crofford, daughter of SFC Paul and Shari Crofford, Fort Lesley J. McNair residents.

Quinn was presented an Army Commendation Medal by Maj. Gen. Jerry R. Curry, Commander of the Military District of Washington, for his quick action.

Dwight Covington

"In Memory of Dwight Covington, A Community Legend" by Wallace Perry

A crowd of some 400 people stood in line outside Rollin's Funeral Home to say goodby to "Flute", as he was known.
Most of the people there were S.W.

residents. Others were school mates. family, community workers (Safeway, Health Clinic, S.W. Community House, Recreation Centers, E.P.A., Police Boys/ Girls Club No. 4, local ice cream man Curtis, Jefferson Jr. High, Anthony Bowen Elementary, Amidon Elementary).

The funeral for "Flute" was held

Thursday, March 18, 1982.
"Flute"s size (6'4", 360 lbs.) did not stop him from doing what he loved to do - participate in sports. He was defensive tackle for the Chamberlain High School football team, and was well on his way to a scholarship, with such schools as Penn. State, Maryland U, and Hartford Community College showing a great deal of interest.

He also played basketball for Jefferson Recreation's 18 and under team. He played the center position and was mobile enough to score 10 points and

rebounds a game during the season.
We're going to miss "Flute" in ways we'll never know possible.

Bus Barn Fails To Get N.C.P.C. Approval

CLEARANCE FOR THE CITY'S PLAN to build a 220 bus repair garage next to Ft. McNair on Buzzard's Point has been held up until at least October when an environmental impact review has been made. The National Capital Planning Commission, a federal agency with planning powers in Maryland, Virginia and D.C., when federal land or a federal interest is involved.

The commission members (representing federal agencies, D.C. and Congressional offices) voted to support their staff's recommendation, which said, "Most of the Fort McNair buildings were constructed in the early 1900's based on a plan by McKim, Mead and White. The land along the Western boundary of the Tempo C Site is devoted to NCO quarters which face the parade grounds. An adjacent bus garage will clearly have some adverse impact on the environment of these quarters."

"This historic post has been identified as being eligible for listing in the National Register of Historic Places."

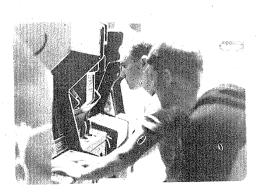

Assembly Helps Green Line

The threat of a loss of funding for the Metro-rail "Green Line" south from the Waterside Mall station is bringing action by the S.W. Assembly.

A recent court decision stopped construction of that portion of the route. - from the Waterside Mall to the Navy Yard, across the Anacostia River and to Prince George's County, Maryland.

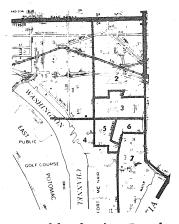

The Assembly's Metro committee is contacting the Congress Heights, Fort Stanton, Garfield, and Washington/Highlands civic associations to form a coalition to continue construction. Members of the committee are Jimmy Jones, John Dawson, Susan Modi and Brian Moore.

One Student's View On Statehood

by Cedric Kinlow

I interviewed Valda Norris about the question of Washington being a state. Valda Norris is a 12 year old girl living in a S.E. Washington resilence. She attends Jefferson Jr. High School on 8th and H St. S.W.

She is in the band, G/T program and thoir, political action group and a lew other groups.

Valda thinks that Washington, D.C. becoming a state would be a problem, specially changing S.E., S.W., N.E., I.W. Washington into cities. A lot of ecople would think it unfair for Washngton to be a state after all this ime and be the capital of the United tates.

Blessing and Parade Of Boats May 16

The Waterfront Washington Association will present its annual parade of boats and blessing of the fleet at 2 pm Sunday May 16 along the Southwest Waterfront.

Boats from area vacht clubs and marinas will assemble south of the Washington Channel and proceed up the channel and down to Gangplank Pier where an area minister, rabbi and priest will conduct the blessings.

The colorful affair attracted a large armada of boats last year.

A community forum to discuss violence and human tragedy will be held Sunday May 9 from 5 to 6:30 pm at Westminster Presbyterian Church, 400 Eye St. S.W.

The discussion is cosponsored by Opera Southwest which is presenting Benjamin Britten's opera Rape of Lucretia Friday and Saturday of the previous and following weeks.

The opera is set in ancient Rome. The sponsors of the forum ask "What is so fascinating about this tale of long ago conflict? Certainly the major issues of Lucretia's time are still with us - the nature of political power, the meaning of love and marriage, and the application of justice."

A panel will discuss "the message and meaning" of the opera and "alternatives to human tragedy and violence."

An Open Letter to Our Friends in Southwest Washington

SOUTHEASTERN UNIVERSITY

501 EYE STREET, S.W. WASHINGTON, D. C. 20024 (202) 488-8

OFFICE OF THE PRESIDENT

(ESTABLISHED 1879)

April, 1982

Dear Friends:

In September 1972 Southeastern University opened the doors of its new home at 501 Eye Street in Southwest Washington. The University is now closing those doors and opening new ones on the courtyard side of the building on Sixth Street.

We had to close the Eye Street entrance to make room for much needed office space—one of the accommodations necessitated by the University's spectacular growth.

Grow we have. When we arrived among you nearly ten years ago we had 450 students enrolled. WE NOW HAVE OVER 1700. Our curriculum was limited then to undergraduate courses offered mostly in the evening.

We now offer graduate degree programs on weekends and we have undergraduate classes not only in the evening but daytimes and even on Sundays.

We have flourished in your community. In this, our tenth year in your midst, we would like to get to know you better and to have you know us.

For starters here is some information about us.

Southeastern University had its beginnings in classes at the YMCA over 100 years ago. Early on it devoted itself to people who work by providing practical, usable courses at times convenient to those who hold jobs. The University is a non-profit, independent institution offering programs in BUSINESS ADMINISTRATION, PUBLIC ADMINISTRATION, ACCOUNTING, FINANCE, ECONOMICS, INFORMATION SYSTEMS MANAGEMENT, MARKETING, and TAXATION. Many of our professors teach at Southeastern the subjects they practice in their regular professions.

All of our students commute but that doesn't mean they are all local products. We have a great many international students, for example, who add to the cultural and intellectual diversity of the University community. Some of our Southwest neighbors have entertained these students in their homes—a courtesy we all appreciate. We would like to see more community—University interchange. For example, some of our students are in need of tutors and we would like to learn of their availability.

Southeastern operates on a trimester system with terms beginning in September, January, and May. REGISTRATION FOR THE SPRING TERM WILL TAKE PLACE ON THURSDAY AND FRIDAY, May 6 AND 7. Graduate classes start May 8; undergraduate classes on the 10th. Applications are being accepted now.

So much for us. Now we would like to learn about you and what you think. We would be interested in knowing what courses you would like to see offered at your neighborhood university, what role you think we should play in the Southwest community, and how we can be more neighborly. Will you be a good neighbor and fill in the form below? IF YOU WOULD LIKE TO CALL US UP WITH A QUESTION OR COMMENT OUR TELEPHONE NUMBER IS 488-8162.

P.S. In the meantime don't worry about the doors closing on Eye Street. The doors off the court on Sixth Street are still wide open from eight a.m. to ten p.m. each weekday and from eight to five on Saturdays and Sundays. You can walk through those doors and sign up for career-related courses in ACCOUNTING, BUSINESS ADMINISTRATION, ECONOMICS, FINANCE, INFORMATION SYSTEMS MANAGEMENT, MARKETING, AND PUBLIC ADMINISTRATION.

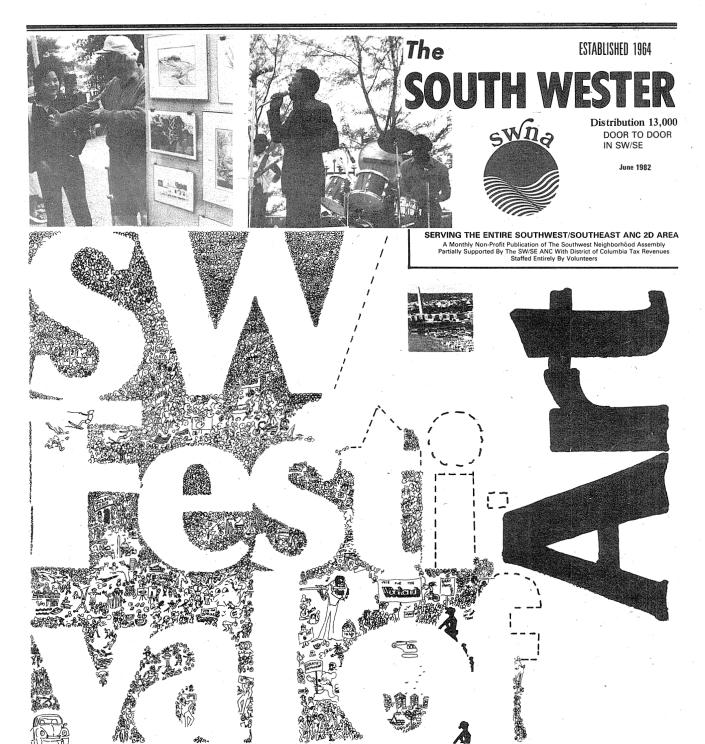

Sincerely,

Jarry K. Miller, Jr.

President

Southwest Festival Of The Arts Sunday, June 6, noon to 6 pm On the Southwest Waterfront, 6th & M S.W.

The S.W. Festival of the Arts Sunday, June 6, will cover the S.W. Waterfront from the Titanic statue the Ft. McNair end to Hogate's Restaurant.

Along the walkway behind the apartment houses will be the usual array of booths of arts and crafts and food, plus stages for performing arts and the auction scheduled throughout the afternoon. At the corner of 6th and M St. S.W. the law of St. Augustine's/Temple Micah will be busy with a bazaar and other activities.

At Hogate's Restaurant the arts festival will include a crab feast for \$9.95, spare ribs, hot dogs for the kids, and sculpture and art from the Art Barn set out along the promenade between Hogate's and the boat slips.

Climax of the day will be the performance of the musical "Purlie" at Jefferson Jr. High, 7th and "I" St. S.W., at 7 pm Sunday, June 6.

THE PARKING LOT BETWEEN CHRIST UNITED METHODIST CHURCH and Waterside Mall recently held three tractor-trailers EPA's model incinerator for destroying hazardous wastes.

E.P.A. Shows Off Waste Incinerator

You may have noticed the above machinery parked at EPA. On April 27 a new mobile hazardous waste incinerator which can destroy pesticides, toxic organic substances, and PCBs, was presented for public viewing by the U.S. Environmental Protection Agency. It is designed to be sent directly to abandoned hazardous waste sites or to chemical spills anywhere in the country. The incinerator can treat up to 100 tons of dry hazardous waste, or 6 tons of liquid hazardous wastes per day. After test burns scheduled this summer, the system will be demonstrated at several hazardous waste sites around the country.

Call 750-1000 to sign up for the plan or to receive further information.

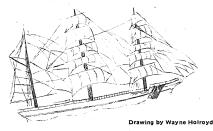

S.W. International Center

A "Waterfront Task Force" has suggested that the 7th to 10th St. area along Maine Avenue, S.W. might someday become an international center with exhibition hall and conference center.

The Federal City Council, which bills itself as "a private nonprofit organization of 125 business and civic leaders committed to improving the quality of life in the nation's capital," issued a report on the waterfront along both sides of the Anacostia River and the Potomac up to (but not including) Georgetown. Chairman of the task force is Edwin K. Hoffman, Board Chairman of Woodies. The report states:

"Southwest Washington should become the vital community that was envisioned in the urban renewal plan...(T)he heart of Southwest needs an energizing influence... It is suggested that an International Center would provide the theme for this revitalization of Southwest... The Center might feature exhibit areas available for displays by countries from around the world... Related to the exhibition theme could be a conference center, offices, and retailing on an international theme...

"(T)he complex could include residences, offices, and a library for visiting scholars. Housing would also be appropriate on the site or a portion of the site."

Mall Study Issues First Report

The first interim report of the Southwest Neighborhood /Waterside Economic Development Study, which was undertaken by the city in response to pressures from the Save Our Mall Committee, has been issued by the contractor, Hammer, Siler, George Associates. The report consists of a "needs assessment," "development context" and "the next scheduled steps."

The needs identified by a sampling poll of the 12,288 residents included in 6,476 households centered on crime prevention and security, job opportunities for youth, increased retail activity at the Mall, improvement to public housing, and the opening of the Metrorail station. The development context identifies the physical area of the Southwest and past and current development efforts. The latter include the Design Center, Banneker Plaza, and Capitol Gateway.

The anticipated completion date for the study is September 30, 1982, and future reports will assess opportunities for increasing retail activities and identify other commercial revitalization and community improvement potentials.

Interviews For New Principal At Amidon

A reception is planned so that parents and teachers can meet candidates being considered for principal of Amidon Elementary School. Persons wishing to be notified by mail when the reception is scheduled, please send a stamped, self-addressed envelope to Mr. James Foley, 713 Sixth St. S.W., Washington, D.C. 20024.

Amidon Principal Delores Zucker retired in February. The Amidon PTA elected at its May 18 meeting Ms. Emma Jane Mitchel (an Amidon teacher) and Mr. James Foley (an Amidon parent) to sit on a five-member panel to interview applicants and recommend three to the Superintendent of Schools for final appointment.

The school system personnel office is screening applicants to submit to the panel.

REPAIRS FOR KING-GREENLEAF

The Commission is asking the D.C. government to fix up the area around King-Greenleaf Recreation Center. The area is in disrepair. It is littered with broken glass. In addition, part of the patio brick wall has fallen down and broken bricks have been strewn around the area.

CAPITAL YACHT CLUB PARKING. Capital Yacht Club Commodore Earl Keaton has asked the ANC for help in getting more parking space for the CYC. Other members of the Waterfront Washington Association are pressing the D.C. government to implement the S.W. Urban Renewal Plan requirements for a park in an area now used for parking. CYC would like to see something done even if this means that the park is not built. The commission is requesting a status report from RLA and will consider the matter further next month.

The entertainment is built on the theme "The World Is In Washington" and lasts from noon to dusk.

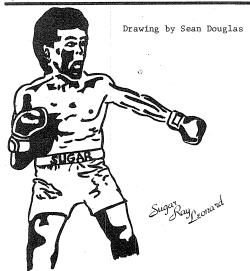

Citywide Waterfront Celebration Comes to Southwest

For eleven days from Friday, August 27 to Monday, September 6, a major waterfront festival will be held along the Maine Avenue waterfront sponsored by the Waterfront Washington Association.

Included will be the arrival of visiting ships, a seafood festival, puppet shows and magicians, trout pond, band concerts and arts and crafts exhibits. There will also be a Neptune Ball and crowning of a waterfront queen, crew races and hang-gliding demonstrations, a boat show and regatta.

A fishing derby will be cosponsored by WJLA-TV, Schlitz, Kodak, Hermans, Coke, the American Fishing Tackle Manufacturer's Association and the fishing committee of the Washington Area Waterfront Action Group.

Prizes will be awarded on September 6 for the largest fish caught by both an adult and a 12-and-under child for black bass, carp, catfish, striped bass, crappie sunfish and perch. Major prizes will include a trip to Disneyworld and a boat, motor and trailer.

Brian Moore Unsure Of New D.C. Constitution

Brian P. Moore, a Southwest resident and Ward 2 delegate to the recent District of Columbia Constitutional Convention was one of the four of 45 delegates who abstained from voting yea or nay on the Constitution finally adopted on May 29, 1982.

In a letter to the other delegates, which he shared with the Southwester, he explained the reasons for his abstention.

He indicated that the Constitution failed to maximize citizen participation in the voting process and the judicial system and did not define local community authority and autonomy. He went on to say that while he could accept the mixture of orthodoxy and progressiveness reflected in the final draft, there were three items which kept him from voting approval. They were the forty member legislature, a guarantee of job or income for all residents and the application of public school standards to private schools.

He added that, despite his feeling that there could have been improvements in the manner in which the leadership applied the rules and utilized the time available, participation in such an historic and unique effort was a pleasureable once—in—a—lifetime experience.

Channel Inn Asks Support of ANC for Change to Urban Renewal Plan to Permit Addition

by Gottlieb Simon, Exec. Dir. ANC 2-D

Manuel Fernandez, owner of the Channel Inn, and the D.C. government (DCHC) are asking to have the S.W. Urban Renewal Plan changed so the Channel Inn can be enlarged. It now has 100 rooms and rises to 3 stories, in part. It is now permitted to have 150 rooms and have 3 stories throughout. The change would allow it to have 210 rooms and 4 stories throughout. Fernandez had intended to complete the Inn several years ago but was prevented from doing so because hwe was caught in a legal crossfire involving Parcel 76.

A number of residents attended the last meeting (of ANC 2-D) and expressed opposition to the change. The main reasons were that it would interfere with the view of the river (in violation of one of the goals of the S.W. Urban Renewal Plan itself), interrupt the "skyline" of the waterfront, and be a precedent for generally raising the level of buildings on the waterfront. Rev. Troutman of Riverside Baptist Church spoke in support of the change, citing the good works of Fernander.

Fernandez and his architect showed a model and plans for the redesigned and completed motel. They cited the benefits to the District, including increased taxes that the S.W. URP change would allow. They stated that because of higher interest rates, etc., it is not feasibile to build only 50 additional rooms at this time.

After discussion, the ANC decided to defer taking a position until the next meeting, to allow Commissioners to hear further from area residents.

James Creek Residents Return To Homes

The first 49 units of James Creek Public Housing have been completely renovated and the residents are moving back in. A ribbon-cutting ceremony was held with Mayor Marion Barry in attendance.

First to move in were the residents in the block along Canal St. from N to O S.W. Thirteen more on First St. from O St. were among the next residences turned over to the city from the contractor.

Renovation included replacement of kitchens and bathrooms, plumbing, electrical, and heating systems, wall and floor surfaces, roofs, interior and exterior painting and addition of a security system and laundromat. James Creek Dwellings were built in 1941.

In most cases the residents had been relocated to other public housing during the past two years and are returning as James Creek residents.

Funding for renovation of the 239 units in James Creek includes \$7.1 Million loaned to the District from the U.S. Department of Housing and Urban Development and a \$4.6 million grant from HUD.

SERVING A MARKET INN LOBSTER dinner to hospital patient Priscilla Tirado, center, are Theodore C. Jones, left, and Patricia E. Buelken of G St. S.W. Mrs. Tirado is the airline crash survivor who was saved by bystander Lenny Scutnik.

Market Inn Cheers Up Air Crash Survivor

A month after the TV screens showed bystander Lenny Scutnik rescue Priscilla Tirado from drowning at the 14th Street Bridge site of the Air Florida crash, she was still in the hospital, leg in a cast, griefstricken at losing her husband and baby - and tired of hospital food.

Scutnik came to Market Inn on E St. S.W. and 2nd St. and ordered Mrs. Tirado's favorite food to be delivered to the hospital - a four pound lobster, steamed clams, wine, baked potato, salad, bread and butter, cheesecake.

Freelance writer William Royster gave The Southwester this report of his recent interviews with the Market Inn Manager Mike Kipp and waiter Theodore C. Jones and waitress Patricia E. Buelken who served the meal at the hospital:

After Lenny ordered the meal "the rumor about what we were going to do spread throughout the restaurant and the waiters and witresses took up a collection. The next day when Lenny came back I told him it was paid for already," said Kipp.

Waitress Buelken recalls that Mrs. Tirado "didn't eat any bread, no potato, not the salad. She ate slowly. I've never seen a cleaner lobster."

Kipp remembers, "she ate for two hours. Some nurses would pop in every now and then and they couldn't believe how much she was eating. A four pound lobster is a huge one...and the steamed clams."

"Her walls were covered with homemade cards kids had sent from all over the country. She talked a lot about them. You could tell they helped her

RUTH MEYER, RIGHT, SPOKE to the ANC on Channel Inn. Mary Beth Minden, left is former President of Harbour Square.

MANUEL FERNANDEZ, RIGHT, PROPRIETOR of Channel Inn Motel, leaves an ANC 2-D meeting accompanied by Alex Jef-fries, an architect. They explained the 100 room expansion of the motel being planned.

Will Channel Inn Violate Urban Renewal Plan?

One of the questions raised about Channel Inn's request to raise its roof is the wording of the Southwest

root is the wording of the Southwest Urban Renewal plan on visibility to the channel. Under S.W. Waterfront, Sec. 542.31 of the plan states:

"Visibility objectives. Individual buildings and groups of buildings shall be so designed and located to permit optimum visibility of the waterfront and the Washington Channel from Maine Avenue, the Overlook at the end of the Tenth St. Mall, and from residential areas east of Maine Avenue. In order to achieve these objectives, special standards have been established in regard to build-ing heights, lot coverage, setbacks and riparian developments."

Will the height standards turn out not to be standards at all, but just temporary limits to be rachetted up each time money is available for another story to be added?

Tiber Island residents have joined Waterside Towers residents in opposing the increased height, but ANC 2-D $\,$ has voted not to oppose it.

Portal Site Sale Soon

Acquisition of Parcel 47 and 49 from the city is expected to take place in late August or early September, essentially consistent with the initial proposal. The site is on Maine Ave. between 12th and 14th S.W. and is known as the Portal Site.

Banneker Associates were awarded development rights to this part of the Southwest Urban Renewal area in February. The evelopment will include a 434 room hote, and 1.8 million square feet of office space in 5 buildings. Commercial and theatre space included in other proposals were absent in the Banneker propos-

The developer was to set up Banneker Foundation, funded by rental income and operated by the community for the benefit of the community. Seed money of \$250,000 for the foundation is expected when the land is acquired.

Wes Long Reappointed

Dr. Wesley H. Long has been reappointed to the Public Service Commision by Mayor Marion Barry and confirmed by the D.C. council to a four year term ending June 30, 1986.

Long's statement to the council included this comment: "The telecommunications industry is undergoing radical changes with tremendous implications at both the national and local levels. The electric power industry is tangled in nuclear power controversies. The gas industry is faced with deregulation of natural gas prices. Consumers buffeted by these many changes are finding it increasingly difficult to meet their basic energy needs..." "...it becomes more and more difficult to determine where the public interest lies.

Long and his wife Penelope live in a Capital Park townhouse. He is a former chairperson of SW/SE ANC 2-D, Department of Commerce economist and associate professor at Pennsylvania State University.

He served as a delegate to the D.C. Statehood Constitutional Convention.

Elain Heiligh To ANC

Filling the vacancy created by the resignation of Gerald Griffin, Elaine Heiligh (pronounced Hy-lee-a) has been appointed to the nine-member SW/SE Advisory Neighborhood Commission by the other commissioners. Her petition signed by her neighbors had been approved by the D.C. Board of Elections.

The area she represents on the commission includes Greenleaf Annex, where she resides, Town Center East, and Capitol Park Plaza, 201 I St.

ANC Adopts Time Limits

"PROCEDURAL RULES" WERE ADOPTED AT the ANC 2-D meeting June 7 stating that any person who phones the ANC office at least 24 hours before the monthly meeting (First Monday of the Month) will be given a chance to address the nine commissioners. Rather than phoning, a person may contact the executive director (Gottlieb Simon) in person. The ANC office is in the basement of the Westminster Presbyterian Church, 400 I St. S.W. The phone number is 554-1795.

Other rules are that the meetings will end at 11 pm unless extended till midnight by vote of the ANC.

Residents given the right to speak will appear on the agenda item "Community Concerns", which is often the first item on the agenda, although at the July 12 meeting it was next to last on the agenda.

The pyramid of Cheops, largest of the three Giza pyramids, is estimated to have required the labor of 100,000 men for a period of 20 to 30 years.

Census To Change Small District Boundaries

EVEN THE SMALLEST OF ELECTION districts will be affected by the 1980 census results, now being analysed by the city down to the lowest level, the census block.

In Washington, D.C., there are several hundred small areas with a population of about 2,000 each, called Single Member Districts. Within each SMD the voters elect one of their neighbors to be a commissioner on the Advisory Neighborhood Commission for their area. Southwest D.C. north of the Anacostia River has 7 SMDs which elect members of ANC 2-D. Two more commissioners of ANC 2-D are from SMDs east of South Capitol St. -includingthe Navy Yard.

The 1980 census shows fewer residents in Southwest, as well as other parts of the city. Southwest dropped from 15,794 in 1970 to 12,288 in 1980. The Southeast part of ANC 2-D dropped from 4,290 to

To keep single member districts at 2,000 people each, the boundaries will have to be expanded. ANC 2-D will probably have 8 rather than nine SMDs. The DC Council decides.

The 1980 population within the boundaries of the present SMD's is as follows:

SMD 1 (West of 4th St., north of M)

SMD 2 (East of 4th, North of I, minus 201 I St.) 1,789

SMD 3 (East of 4th, I to M, plus 201 I St.) 1,483

SMD 4 (West of 4th, M to P, plus Channel Square and Ft. McNair)

SMD 5 (East from 4th to Delaware between M and O; from 3rd to Canal St. between 0 & P)

SMD 6 (East from Delaware to So. Capitol from M to N)

SMD 7 (East of 2nd St and Canal St. from N to the Anacostia River) 1,848

Waterfront Celebration Aug. 27 to Sep. 6

Labor Day weekend will be the climax of a two week celebration on the Southwest waterfront featuring music, food, boating exhibitions on the water, and a fishing derby.

An expansion of the seafood festival held on the waterfront last September, sponsors include the Maine Avenue Restaurants and the Waterfront Washington Association.

"Sampler" tickets for \$6 are now on sale at the restaurants, good for a small serving of each of the follow-Hogates - stuffed clams

Flagship - Neptune salad Pier 7 - gumbo or Gazpacho Gangplank - shrimp salad in pita bread

Casa Maria - taco Barley Mow - barbecue rib Capital Yacht Club - Fish chowder

Anyone can enter the fishing contest by fishing the Potomac River between Cabin John and the Woodrow Wilson Bridge, including the Washington Channel (S.W. Waterfront), the C&O Canal, and the Tidal Basin.

Catches must be checked in at one of three weigh-in stations: The tip of the D.C. Municipal Pier where the Harbor Patrol and Fireboat are docked near 6th St. and Water St. S.W., or Fletcher's Boat House or the paddle boat rental dock at the Tidal Basin. Weigh-in stations will be open for

five hours - from noon until 5 pm. Prizes will be awarded on Labor Day (Monday, Sep. 6) at the park at 7th St. S.W. and Maine Ave. for the largest fish caught by both an adult and a 12-and-under child for black bass, carp, catfish, striped bass, crappie, sunfish and perch.

During the two weeks, booths on the waterfront will be open to sell the \$6 sampler tickets, the Washington Boat Lines will sell snack foods and beverages, and there will be beer and coke concessions in the area.

Musical entertainment will be provided each day of the festival at 2pm and 4 pm in the mini-parks located at 7th and Water St. S.W. and at 9th and Water St. S.W. - next to Hogates and next to Channel Inn.

The National Concert Band of America will perform in concert on Sunday August 29 at 2pm. Other groups performing include:

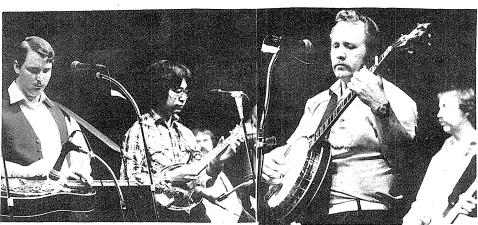

Bill Rouse and the Uptown Grass Band D.C. Motors Foggy Bottom Shieks of Dixie Sultans of Swing

Proceeds go to various local charities.

(See Page 12 for Canoe, Kayak and Sailboat schedule)

VOLUNTEERS NEEDED - anyone wishing to help with the Waterfront Celebration, please call Carey O'Brien 387-8730.

ONE OF THE MUSICAL GROUPS FEATURED AT THE WATERFRONT CELEBRATION WILL BE BILL ROUSE AND The Uptown Grass Band with (left to right) Rosemarie Rouse, guitar; Mark Baker, Dobro; Akira Otsuka, mandolin; Bill Rouse, banjo; and John O'Donnell, bass.

Arts Grants Available in S.W.

The Southwest Festival of the Arts is now accepting proposals from individuals and organizations who are interested in conducting art programs that will be of benefit to Southwest residents. Proposals should be submitted by September 21 to the SW Festival of the Arts, P.O. Box 8091, Southwest Station, Washington, D.C.

Activities in which individuals can learn by actual participation are preferred. Applications should identify the group or person, goals and objectives of the project, method of accomplishing the goals, number of people who can be expected to benefit, and total cost of project and the amount of the grant requested.

In past years grants have gone to Amidon School Photography Club, Opera S.W., Bowen School Glee Club, King-Greenleaf Recreation, and poetry workshops, in amounts ranging from \$50 to

Southwest Residents Honored

Three Southwest residents were honored recently by the Ward 2 Service Area - city officials serving the area.

Officer Willie Borden received a plaque for outstanding community service as director of No. 4 Boys and Girls Club. He has devoted himself to serving Southwest youth both day and night.

Brian Moore, ANC Commissioner, Statehood delegate, and past president of the S.W. Neighborhood Assembly, received an award for his outstanding community service.

Dr. Louise Taylor was honored for her outstanding work with the students at Jefferson Jr. High School

Southwest residents are fortunate to have three such devoted residents who have given so much of their time and resources in making our community a better place in which to live. Thank -Sharon Hoeffler, SWNA Pres. you.

S.W. Coed Team Beats

The new co-ed softball team at Jefferson Recreation Center added a victory over the experienced WHUR FM-Radio station team to the 7 wins, 3 losses record for the year.

A last inning double play gave the Jefferson team the 12 to 11 win at a pool party and open house at Randall.

Coach Wallace Perry reports outstanding performances by the co-ed team as: Co-captain Terry Crank (.666 batting average); third baseman Shirley Hudgens (.450 batting average); and Pitcher Robin Washington (7 wins, 2 defeats). Other players are L. Watts, George Taylor, J. Readon, Tom Senns, Charles Bacon, George Parker, Debora Boone, Kenny Brewer, Bob Bellamy.

Five men and five women must be on the field at all times. City-wide playoffs start August 23.

Sixers Win A.B.O.U.T. Club **B.B.** Tourney

Coach Dwight Newby and his team won their second championship in the A.B.O.U.T. Club 4th annual basketball tournament.

They defeated the Kitzs 99 to 97 in an exciting game at Jefferson Jr.

Players with outstanding performances in the tournament for the Sixers are: Vincent Queen (27 points, 15 rebounds in the championship game), David Reese (10 steals, 10 assists), Joe Brawner (19 points; 11 rebounds), Keith Porter (15 points; 11 rebounds; 8 steals) and the 6'7" center James Howard (11 blocked shots; 17 rebounds).

The Kitzs, with several players from the Arthur Capper area in S.E. were lead by the tournament's Most Valuable Player Donald Covington and best

sportsman, J.R.
George Taylor, league chairman for the club, presented the trophies to the winners. He deserves credit in bringing the league to its high standing in just four years.

Jefferson Baseball Undefeated

The Jefferson Trojans and the Capper Pirates have entered the Ward 2 playoffs as The Southwester goes to press, with records of 11 wins, no losses, and 8 to 4 respectively.

Jefferson was city-wide champion last year and is pinning its hopes this year on solid pitching and hitting by Ronald DeWitt, Tony Washington and Reggie Paris and the hitting power of Ron Buchannan, with strong support from other team members.

Three From S.W.On All-Stars

RONALD DEWITT, TONY WASHINGTON AND Anton Gethers of Southwest were on the D.C. Recreation Dept. All-Star team. DeWitt ran away with the outstanding player award, with two home runs and five complete innings of pitching. His grand slam home run came when the opponents led 5 to 4.

Tony washington had 3 hits in four times at bat, and Anton Gethers was second runner-up for the MVP award.

Davon Carter was voted in by the D.C. Recreation's Little League Baseball committee as the bat boy.

The Sonics gained a spot in the ABOUT semifinals thanks to the playing of Donell Moses, who bit 14 points

Donell Moses, who hit 14 points.
The Lakers had taken a 6-0 lead when Moses hit 3 of the 4 straight Sonic baskets, to take an 8-6 lead. The playing of guard Gary Stanley and Lou Johnson enabled the Lakers to end the half with a 25-19 lead.

In the second half the Sonics were in control, scoring 4 stright baskets to take a 27-25 lead. With the play of Tony Green and Moses the Sonics clearly outplayed the Lakers.

With less than a minute left Moses' basket made the score 44-41. The Lakers hit a free throw to cut the lead to 44-42. After a brief argument of how much time was left, the Lakers got an extra second. They had to make both free throws and Lou Johnson was shooting. He connected on only one, and the final score was 44-43 in favor of the Sonics.

Fireworks vs. Knicks - A Thriller

The A.B.O.U.T. Basketball Playoff opener between the Fireworks and the Knicks was a thriller. The Fireworks held the lead during the first part of the game, but with the score 33-29 the Knicks started to surge.

The game had to be continued the next day because of rain right after the Knicks' center dunked the ball to give the Knicks a 39-37 lead.

The next day the Knicks continued their surge and pushed the lead to 56-50. Then Don Johnson went in the game for the Fireworks and they scored 3 points to make it 56-53 with 32 seconds left.

Johnson made a steal and then hit a shot to cut the score to 56-55. The Fireworks fouled Knick guard Kenny Williams with 15 seconds to play. Williams hit two free throws to end the game with the final score 58-55, Knicks.

leff Two Years Above National Norms In Math

Latest scores on the national "Comprehensive Test of Basic Skills" show that Jefferson Jr. High students in 9th grade are performing at grade 11.8 in mathematics, compared to the national norm of 9.8. A steady improvement has been made since Jefferson scored 9.1 in 1979 and 10.2 in 1980.

In reading, Jefferson is at the national norm, 9.8, compared with 8.2

The multiple choice exams were prepared by the California Testing Bureau, a division of McGraw-Hill Publishers and take three hours to complete.

Education Workshop Thurs. Sep. 30

The schools in Southwest will be the subject of a community meeting Thursday, Sep. 30 at 8 pm at St.
Matthews Lutheran Church, 222 M St SW.

Principals and PTA presidents have been invited from Syphax, Bowen and Amidon Elementary Schools and Jefferson Jr. High to discuss with the pub-

*New programs - innovative, creative, unusual efforts to help the students learn.

*Standardized test and the competency curriculum - interpretation of scores, programs to improve scores, S.W. scores compared to city and national scores.

*PTA activities and concerns -Level of participation by parents, goals and future events, fundraising goals and methods.

The meeting will follow a workshop format. It is the monthly meeting of the Southwest Neighborhood Assembly. Refreshments will be served.

The October meeting of the assembly is planned as a talent show and Hal-loween party for youth. Principals at Southwest schools in-

clude Vera White at Jefferson, Patricia Kitt at Amidon, Edward Wells at Bowen and Mary Jo Williams at Syphax.

Civil Service Pensions In Danger In Senate

FEDERAL AND DISTRICT EMPLOYees working or living in Southwest are interested in a bill introduced in the U.S. Senate September 14 to "dramatically change the pension system for Federal workers," according to its author, Senate Majority Whip Ted Stevens, R-Alaska.

The bill would require new employees to join social security, benefits will be cut for early retirement, and will include 7 days of non-accumulating annual sick leave.

Present employees could join the new system voluntarily.

Sen. Stevens stated in the Congressional Record that the present civil service pension system "is an expensive plan which rewards a few at the expense of many... Admittedly, the concepts contained in the legis-lation are somewhat revolutionary vis-a-vis the current system."

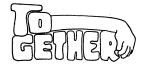

Employee groups such as the American Federation of Government Employees, oppose making social security a part of the federal pension system.

Unemployment Problem

S.W. House Attacks

Thirty-five persons have been placed in jobs as a result of efforts of Southwest Community House. A Southwest House staff person has been working with local merchants and businessmen to locate jobs. Over one hundred and fifty referrals have been made or interviews arranged for these community people who needed assistance. The agency has regularly focused on this problem by meeting with groups working toward the same goal and by contact with the community.

Volunteers Mr. G. Solon and Ms. Bellin, both Southwest residents, have been assisting the staff to develop seminars for job preparation. SICKLE-CELL

The Sickle Cell Anemia Unit from Howard University had its base at King-Greenleaf Center August 26, with the cooperation of the Southwest House. Approximately fifty persons were screened. The unit also gave counseling on nutrition and health habits. ANNUAL MEETING

The annual meeting of Southwest House is at 7:30 pm Oct. 18 at Bowen School, 1st and M S.W. The public is invited.

Bowen, Syphax Challenge Amidon In Tests

Rapid improvement in national test scores at three Southwest elementary schools reveals that third graders at Bowen now have higher math scores than their neighbors at Amidon, and third graders at Syphax are ahead of Amidon in reading. To do this, Syphax has come up to national norms in reading and Bowen exceeds national norms in math. (See table below)

Amidon leads at the 6th grade level and is generally ahead of national

"As you know Fort Leslie J. McNair was designated a military post in 1791 by Pierre L'Enfant... It is listed as a category two hisotical landmark and is listed in the National Register of Historic Places."

what is done..."

"...it will have a significant adverse impact on the lives of my soldiers and non-commissioned officers families, especially children, and their play area. Also on the chapel that is scheduled to be built there in 1986, the swimming pool, the neighborhood city residents."

The general showed slides of views of the fort, stressing its collegetype atmosphere with the National War College building, the Industrial College of the Armed Forces building, and the Inter-American Defense College.

Commenting on photos of 19th Century buildings at the fort, the general said, "In terms of history, as you know, those people involved in the .

Lincoln conspiracy that ended with John Wilkes Booth killing President Lincoln, this was the courthouse in which they were tried. And they were hung on tennis court four...This is the hospital...where Walter Reed conquered yellow fever."

City planning director Jim Gibson defended the proposed site and opposed the suggestion that the present bus garage be rebuilt in or near its location east of South Capitol St. and south of M St. He stressed the fact that plans for the South Capitol St. area included 1800 residential units, compared with the 30 families at the fort next to the wall. Gibson emphacised the need for high density development next to the future Metro-rail station at M and 1st St. S.E.

Gibson stated that the Capital Gateway Project "is in essence ready to proceed forward with existing authority, initial funding locally and nationally to become a 52-acre multiuse project that would enhance the water front, provide additional housing in the vicinity and provide commercial, recreational and cultural facilities."

Metro expects to have parking and maneuvering for 220 buses at the new site, with 160 employee parking spaces on the roof of the maintenance garage. The area would be lighted by 40 foot high light poles. There would be 93 garage employees at the site. 255 full time and 27 part time bus operators would use the fācilities.

- by Lawrence Brown (RESULTS OF THE OPENING GAMES OF three of the five Club No. 4 teams were available to The Southwester at press time. Play was at Dunbar High).

The 105 lb. team of Club 4 dominated the game as they crushed Club 2 (located at 128 M St. NW) by a score of 20 to 0. Wide receiver Anthony Chandler scored two touchdowns. He caught one touchdown pass and intercepted a pass and returned it for a touchdown. He also caught a pass to set up the play from the one yard line when running back #30 Dwayne Hood went in to score.

No. 4's defense appears to be the hardest hitting defense in their weight class, with such hitters as safety Ronald Dewitt, middle line backer Donald Nichols, and defensive end Rick Maybell. The way #4 played Saturday looks like they're heading for the championship. Their coach is Eddie Lyles.

The 120 lb. team for #4 played #6 from Upper Northwest D.C. to a 6-6 tie in regulation time and lost in overtime 12-6 when #6 scored on a pass.

As the game started, #4 was really hot on defense, but on offense had to punt after the first three downs. The strong #4 defense resulted in a fumble, leading to a touchdown on a 70 yard pass play from quarterback #2 BayBay Shannon to wide receiver #22 Putney Brown.

#4 continued to dominate the game until late in the second quarter when #6 rallied with a twenty yard pass for a touchdown to make the game 6-6.

But #4 didn't give up and even held

But #4 didn't give up and even held firm on the five yard line before the game went into overtime. Coach is Roger Cobble. The 120 lb. team missed the support of tight end Darryl Johnson and tackle Derrick Beverly, who did not make the game.

The 90 lb. team, coached by Samuel Perry had its season opener spoiled by a strong team from Club No. 11 in Anacostia.

#4 played hard and hung tough like true Vikings, and will be back. Reginald Horns, a running back, appeared to have a good rushing game. So did running back Sam Carson. The team misses wide receiver Sean Thomas who is out with a broken wrist.

The game ended 20 to 0 for #11.

A's Win Slo-Pitch Crown

IN 3 GAME SWEEP -By Darryl Holt

The Athletics - champions of the Eastern Division of the Randall Slow-Pitch Softball League - took the league championship in three straight wins over the Western Divison champs The Pacesetters.

In the final game the Pacesetters knew they were in trouble when the A's jumped to a 4-l lead in the first inning, and increased the lead to 6-l in the fourth.

But Pacesetter spirits revived in the 5th inning when Willie Dixon hit a double bringing in two scores and later scored himself. With the bases loaded the Pacesetters had the winning run on first. But the A's defense was too good, and the inning ended 6-4. The desperate Pacesetters tried

The desperate Pacesetters tried hard to set up double plays in the bottom of the fifth. The A's had Bubba Terrian on third and Jerry Swanson on second. The Pacesetters intensionally walked All-Star Norman Edwards. On the next play Terrian came home. They then intentionally walked Andrew Tibbs. But their plan failed as a home-run slice by Red Tatum brought in three more runs, to close the 5th 10-4.

The closing innings brought only one more run for the losers, but a score by Tatum after a tripple, and a home run by Norm Edwards bringing in players from second and third made the final score 14-5.

MAYOR MARION BARRY TRIES HIS LUCK AT fishing from the Gangplank Restaurant dock, at the opening of the fishing derby.

Celebration Opens S.W. To New Visitors

Again this year as last the Waterfront Washington Association has done more good for the reputation and spirit of our neighborhood than all the surveys and studies by planners.

The unique features of recreation on water, thousands of residences with a stunning view, restaurants in variety and quality unmatched in the area, a promenade open to the public, the Potomac clean enough to produce fish in quantity for sport fishing and eating - were all featured in two weekends of good natured strolling and eating by tens of thousands of young and old.

The high quality of musical groups entertaining in the miniparks, and the presence of artists' booths and others selling at stands along the walkway added a necessary cohesion to the affair.

Southwest is lucky to have civic—minded people who stage outdoor events like this - including the Southwest Festival of the Arts, Family Day, the Club No. 4 Bazaar and the Pool Party, and the recent First Annual Community Festival on Half St. Churches and residences and Arena Stage have opened their front lawns and held out their hands to their neighbors in all sorts of bake sales and festivals and flea markets - providing friend-ship and neighborliness that makes Southwest a residential community envied by many throughout the Washington Metropolitan Area.

Nine Story Building Planned At 5th & E SW

THE <u>SOUTHWESTER</u> HAS LEARNED THAT the construction of a nine story, 300,000 square foot office building is planned for the area bordered by the Southwest Expressway, Sixth St. S.W., E St. SW And MacCallum Gulf Station - the area south of the fire and police stations.

The building at 476 E St. S.W has been razed, but the one at 500 E St SW has not been razed yet.

The land was sold by RLA many years ago on a 99 year lease. It is now owned by School Street Associates. Boston Properties, managers of Capital Gallery at 6th and C S.W., will manage the new building. -Gene Buehler

Thank You From SWNA Pres.

CHANNEL INN EXPANSION IS OPPOSED BY Trudy Fish of Waterside Towers as she addressed a meeting of ANC 2-D in Westminster Presbyterian Church. Councilmember John Wilson, seated in the foreground with his assistant Eric Gill, also spoke against the expansion, which would require a change in the height limits of the Southwest Urban Renewal Plan for the waterfront buildings.

Jenny's Chinese Restaurant Coming To Waterside Mall

An original date of November 15 may be delayed for the opening of a Chinese restaurant in Waterside Mall. Jenny Liu, who recently sold her boutique in the mall, is taking over the cafeteria (once known as the Greek Subway) and the bar which still has the sign Friends Too.

ANC Opposes Motel Expansion

A new vote by the members of ANC 2-D, at the request of Waterside Towers tenants, resulted in a reversal of the commission's stand on doubling the size of Channel Inn Motel on the waterfront. In an earlier vote the commission did not object to the motel going to four stories and expanding onto its parking lot.

Traffic Light To Flash At 4th And N St. St. S.W.

THE TRAFFIC LIGHT AT 4TH AND N S.W. is being changed to flashing from 1 am to 6 am, to avoid waiting when leaving N St. and entering 4th St., according to Thomas M. Downs, Director of the D.C. Department of Transportation.

He had been requested to shorten the wait from 6:30 p.m. to 6:30 a.m. on weekdays and during the entire weekend and holidays, when commuter traffic is not using 4th St., but reported that "Due to control equipment and central master control equipment inflexibility, we are unable to provide a shorter cycle between 6:30 p.m. and 6:30 a.m." than the 80 second cycle which requires N St. drivers to wait 40 seconds during off peak traffic hours.

ANC Commissioner Brian P Moore made the suggestion to Downs, citing the 1500 to 2500 people affected who reside in Harbour Square, Tiber Island, Riverpark and Carrolsburg when crossing the street or driving into 4th St. from N.

Three New Restaurants To Join Waterfont Row

A new building next to Barley Mow/ Casa Maria will have a restaurant on each of three floors. A raw bar on the ground floor and California style restaurants above are in plans submitted by the city urban renewal agency to the SE/SW ANC for comment. No comment was made by the commission.

Summer Jobs, Fun By St. Augustine's Church

by Annie Phillips

SUMMER 1982 HAS GONE -- BUT THE memories linger on and on and on in preparation for next summer.

St. Augustine's Episcopal Church (6th and M St. S.W.) conducted a never-to-be-forgotten summer program which was funded by the Jessie Ball DuPont Fund. One component of the program was recreation, the other employment:

FUNTASTIK, the recreation/educational program for children 8 to 12 included Swimming Roller skating Cheer Leader Training Athletics Dancing Cooking Music

Story Telling Drama
Trips were taken each Friday, including to:

Chinese Embassy Cathedral Zoo Children's Museum Boat Tour Wolf Trap Average daily attendance was 28.
SUMMER JOBS - co-chaired by Donald

McDonald and Annie Phillips, members of St. Augustine's

Twelve youth conducted a survey for Gordov and Slade, Traffic Engineers Eight conducted a survey for Hammer, Siler, and George at Waterside Mall and the Fish Market

Three were employed in FUNTASTIC PASS THE BUCK financed employement for 15 youth at non-profit organizations.

Credit for the success of the program must also go to Erv Menessa, founder of PASS-THE-BUCK, Willie Borden of the Metropolitan Police Boys/Girls Club in S.W., Rae Williams of S.W. Community House, Vette O'Neal of SWEAT, Col. Mick McKeown of Ft. McNair, Merv Strick-ler and Tim Terrell of Southeastern U., Riverside Baptist Church, the SW/SE Vicariate Cluster, and Randall Recreation Center.

The climax to the summer was a gala reception held in the Grand Hall of the National Building Museum, as music and happy voices vibrated through the ageless Pension Building. Awards for their summer work were given to Angela Hallman, Terri Caraway, and Terrie Hyson, all of Southwest.

Now we're working on jobs for summer 1983. We're on our way!

Homecoming Football Games

by Darryl Holt

DAVE CARSON SPARKED THE 70LB. FOOTball team of Club No. 4 to a 13-0 Homecoming Day victory over MPB&GClub 10.

Carson opened the game with runs to the right, left and up the middle for impressive yardage each carry. Then Viking Mark Johnson ran for five more yards from the 20 to the 15. Carson then displayed his passing talent by hitting Viking Michael Williams for a 15 yard scoring play. After the conversion the score was 7-0 Vikings.

In the second half the Viking defense was hard as steel. The stingy defense gave up little on every down.

When the No. 10 team fumbled, the Vikes recovered and moved the ball deep in No. 10 territory. From the 17 yard line Carson ran left for 8 yards to the 9. On the fourth down Carson ran left for a first down on the No. 10 five yard line. On the very next play Carson hit Johnson for failed, the final score was 13-0 for the Vikings.

80 lb. team loses to No. 12 In its only loss of the season, Club 4's 80 lb. team lost the Home-

coming game 16-0. Club 4's defense had five quarterback sacks and two fumble recoveries, but the team still lost.

Club 12's Bernard Greenhow and Rodney MacManis ran impressively and scored a touchdown each. Duane Marcus ran the ball with effectiveness as well for Club 12. He and MacManis were called the M & M offense.

Basketball, Tennis Courts **Under Freeway**

The D.C. Departments of Recreation and Transportation have sought the advice of SW/SE ANC 2-D on what recreation facilities to build under the freeway at 8th St. S.E.

The ANC has recommended a full basketball court, a half bb court, and a tennis court. The work is now under construction.

"Nomads" Beat "Brothers "

THE LITTLE-KNOWN NOMADS HAVE PROVEN themselves in the A division of touch football by beating The Brothers A.C., a strong contending team for many years in D.C. Recreation Department touch football played Saturdays at Randall Field, So. Capitol and Eye,

The scoring started early in the first half when Nomads quarterback Barry Shelton hit running back Nick Ronald with a touchdown pass, for a 6-0 lead.

Later Shelton found himself passing from his own end zone. His pass was intercepted by James Chappel of the Brothers.

The Brothers soon scored when quar-terback Arnold "Hollywood" Hall hit Tony Hawkins for a touchdown. The two point conversion made the score 8-6 for the Brothers.

Later the Brothers scored twice on passes from Hall to Mike Savoy, a former pro football player with the Green Bay Packers and to Hawkins for a 20-6 lead.

DEMPSEY TAKES CHARGE FOR NOMADS

The in came relief quarterback Lowell Dempsey who piloted the exciting offense of the Nomads during the second half. Dempsey hit Iky Jones for a score. The conversion shortened the lead to 20-14.

Just as the Brothers relaxed on defense and assumed the game was in the bag, Dempsey quickly answered with a 65 yard touchdown pass to Bobby Poole for a 20-20 tie. The conversion made the final score 22-20, Nomads.

"We just didn't seem to want the game bad enough. Our defense just relaxed," said Howard Dublin of the Brothers. "It's just one of those things," said one of his teammates.

In two other games played at the Randall Field earlier in the day the final scores were: Chargers 16-6 over Pleasure, and Newbreed 13-6 over N.W. Connection. -Darryl Holt

Leadership Skills, Roles ' Discussed At Workshop

by Rae Williams
COMMUNITY RESIDENTS FROM DIFFERENT organizations and leadership backgrounds in Southwest came together at a Prayer Breakfast and Leadership Workshop at Saint Matthew's Church September 30. The group heard opening remarks on leadership from Mr. Hampton, Deputy Director of the Rental Accomodations Office, which led into a workshop directed by Dr. Louise Taylor.

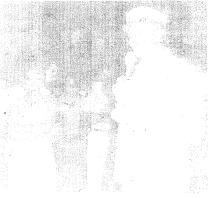

The discussion centered around identifying leadership traits, leadership roles and leadership concerns. The group participated enthusiastically in the question and answer period and indicated a need for having more of this kind of activity to support community efforts.

Ms. Parris, a volunteer, and South-West House staff members prepared the breakfast. Rev. Mitchell rendered piano selections and solos.

Thelma Jones Honored

The 1982 Grass Roots award of the D.C. Federation of Civic Associations has gone to Thelma D. Jones, member of the Board of Directors of the Southwest Neighborhood Assembly.

She was selected because of her "untiring efforts in furthering the education of Southwest students. She was in charge of the recent successful fundraiser for the Southwest Scholarship Fund.

The federation makes the award in each of the 50 neighborhoods with civic associations.

PMA PROMISES HEAT

FOR THE FOURTH YEAR IN A ROW, THE residents of Greenleaf Annex, north of M St. S.W. between 3rd and Delaware, face a winter without heat and hot water.

The city's housing manager Sidney Glee is shown above promising again that all will be taken care of. He did the same in company with Mayor Marion Barry last winter. The deadline promised at that time was Oct. 15, by which time new heating units would serve the townhouses and apartments.

He now admits that work will still be in progress in January 1983.

Meanwhile the same old digging goes on to find leaks in the plastic pipes between the boilers in Greenleaf apartment house South of M St. and the annex units.

Work in the annex units includes knocking holes in the walls of bedrooms, living rooms, kitchens to find the piping to be connected with the new system.

PMA Director Glee promised to postpone knocking holes in the walls until after the Christmas Holidays for those who ask to be rescheduled - but only on a case by case basis.

CAUGHT IT!

ANOTHER PASS FROM QUARTERBACK RONALD Holt is caught by a Club 4 teammate. This time it is #30, Reginald Gregory.

90 Lb. Wins

The 90 1b Club 4 Vikings beat the Maryland Jets 6-0 in the final game of the season.

Early in the first half Kevin Patterson hit Sam Carson for 15 yards and a first down. On a fumble the Jets recovered, but only got 3 yards in the whole 4 downs.

Number 4 took over at the 40 yard line. On second down Ronald Dewitt ran left for three yards. On third Antoine Gethers ran for seven. Gains on the ground by Dewitt and Patterson were stopped by a fumble.

When the Vikes got the ball back they were on their own 12 yard line. They moved all the way to the two yard line, but fumbled.

But the Jetsfumbled too and Patterson dove over the goal line to win 6-0.

-Darryl Holt

80 Lb. in Title Game

Club 4's 80 lb. football team reached the top and played Club 6 for the championship at Dunbar High School field. Some of the plays by the Vikings are described by Darryl Holt:

"On first down Quarterback James Tyson ran for three yards and Fullback Derrick Hopkins ran for another. Facing a passing situation, Coach Walter Westray had something different in mind. He called a double reverse, handing off to the explosive running back Terren "Hollywood" Henderson.

"The play worked. Henderson spurted down the sidelines for 60 yards to the 30 yard line...

"(after a loss) Westray pulled another trick out of the hat on a fake punt, giving it to Sean Coates, which also worked. They picked up 20 yards.

"(after a penalty) on the next play Tyson hit Brooks with a pass that gained 20 yards.... There was no score at halftime."

In the second half Club 6's Duane Marcus scored twice and Kevin Gray once to give Club 6 the crown.

Thanksgiving

The Southwest Ministers Association will have an all-church Thanksgiving Service at St. Matthew's Lutheran Church, 222 M St SW, at 10 am Thursday, November 25. The collection taken up at that service will be given to the Southwest Food Bank, which is supplying food baskets to the needy.

Thanksgiving Baskets

The Southwest Food Bank is seeking food and donations to provide even more than the 120 Thanksgiving baskets distributed last year.

Donations of canned peas, string beans, yams, cranberry sauce, potatoes, stuffing mix, bisquick and other staples can be brought to Southwest churches or Temple Micah. Checks, payable to "Southwest Community House - Food Bank" may be sent to S.W. House, 156 Q St SW, Washington D.C. 20024 to help purchase pountry and fresh vegetables.

Survey Shows Opposition To Channel Inn Expansion

Of 367 residents responding to a questionnaire, 77% opposed Channel Inn's request for a modification to the S.W. Urban Renewal Plan to permit a fourth floor and expansion to 200 rooms.

The number of persons responding were from the following housing complexes: Tiber Island (65); Harbour Square (116); Edgewater (6); Riverside (50): Channel Square (12); Waterside Towers (65): Town Center West (32).

Other returns are being tablulated. SW/SE ANC 2-D Commissioner Brian Moore, who conducted the survey, gave the results at a hearing on the question held by the D.C. Council Committee on Housing and Economic Development.

on Housing and Economic Development.

"Residents of the Southwest, whether they be in apartments, townhouses, condominiums, cooperatives, or harbor boats seem to be living with gradual encroachments upon their lives, their property values, and their neighborhood environment," Moore told the committee.

"There is no question in my mind of the community's overwhelming sentiment that the Channel Inn's modification request would adversely impact upon all segments of the people, their personal costs, the aesthetic beauty, a personal and community alienation, and a tragic loss of the citizen's sense of having moderate control of their living situation," he said.

Eighty-five percent of respondents to the questionnaire are townhouse or apartment owners; 15% are renters.

Raffle, Bingo Rules Issued

Charitable games will now be licensed by the District government under the law which set up the new lottery system. Bingo and raffles are included.

Regulations for raffles include putting all sales money in a separate bank account, specifying the prizes on the face of the ticket, numbering each ticket and stub, getting a certificate from the printer that no duplicates or extras were printed, giving out the prizes at the drawing, and buying a license bond and a financial responsibility bond from an insur. co.

The regulations are set out in the November 12 issue of the D.C. Register, which can be read at the S.W. Library or the Office of SW/SE Advisory Neighborhood Commission 2-D downstairs at Westminster Presbyterian Church, 400 I St. S.W. Ron Cocome 727-6745 is in charge of charitable games licensing for the Lottery Board and can supply application forms by mail or in person.
